WHY MANGROVES MATTER : ECOLOGICAL AND SOCIO- ECONOMIC ASPECTS

Kanchan Puri & Dr. Ritesh Joshi

International Day for Conservation of the Mangrove Ecosystem is celebrated each year on 26 July. Adopted by the General Conference of UNESCO in 2015, this day underlines the importance of mangrove ecosystems as "a unique, special and vulnerable ecosystem, providing by virtue of their existence, biomass and productivity substantial benefits to human beings, providing forestry, fishery goods and services as well as contributing to the protection of the coastline and being particularly relevant in terms of mitigation of the effects of climate change and food security for local communities". The first International Day for the Conservation of the Mangrove Ecosystems was celebrated in 2016 for preserving all mangrove ecosystems and taking forward the 2030 Agenda for Sustainable Development. In the Sundarbans (partly in Bangladesh) are the largest unbroken

mangrove ecosystem in the world and is home to the iconic Royal Bengal Tiger.

Mangroves are ecosystems that occupy the boundary between land and sea. These are halophytes group of plants with adaptations (grow in saline coastal sediment) like sunken stomata, aerial breathing roots called pneumatophores and stilt roots. Their complex root systems trap sediments and store carbon(highly effective carbon sinks) from

the atmosphere and ocean, mitigating the effects of climate change and extreme weather events (act as natural coastal defense against storm surges, tsunamis). They are the most productive wetlands. They consist of trees or large shrubs, including ferns and palms, that normally grow in or adjacent to the intertidal zone. Crisscrossed by creeks of stagnant water and tidal flows, mangroves give shelter to a wide variety of birds and provide a

valuable nursery habitat for fish and crustaceans (breeding and feeding). They contribute to the wellbeing and protection of coastal communities and supporting rich biodiversity worldwide. A good mangrove vegetation is an excellent indicator of the health of coastal ecosystems. UNESCO supports the conservation of mangroves by drawing all its strength through its several programs to protect mangrove ecosystems, like Man the Biosphere Programme, and International Hydrological Programme, Intergovernmental Oceanographic Commission and the Local and Indigenous Knowledge Systems Programme. Mangroves are also included in Biosphere Reserves, World Heritage sites and UNESCO Global Geoparks. It contributes in improving the knowledge, management, and conservation of mangrove ecosystems throughout the world.

CAREER PROSPECTS IN FISHERIES

Nidhi Prasad

isheries science is the academic discipline of managing and understanding fisheries. Over the recent decades, there have been declines in fish stocks (populations) in many regions along with increasing concern about the impact of intensive fishing on marine and freshwater biodiversity.

Fisheries science is assessing, researching and advising on the sustainable exploitation of living marine resources in a healthy ecosystem.

The term fisheries and aquaculture denotes catching of inland and marine fishes for commercial purposes. It involves aquaculture, gears, navigation, oceanography, aquarium management, breeding, processing, export and import of seafood, special products and byproducts, research and related activities.

Fishery science is rapidly expanding in India with the growing demands on the fishing industry. Professionals in this field also aim to develop sustainable solutions to prevent disease and preserve fish populations. This is a multi-disciplinary subject that includes the biological studies of life, breeding habits of various species of fish.

ELIGIBILITY CRITERIA

There are various undergraduate and postgraduate courses available in the field of Fisheries & Aquaculture. For a degree in Fisheries Science you need to have studied science with biology till class 12. Selection process for admission in various universities/colleges is either through university level exam (CUSAT) or state level entrance examination. Students can also apply for ICAR. After completion of B.F. Sc, candidates can go for higher studies apply for M.F. Sc and PhD. Towards the end. You can pursue the following fisheries courses on the basis of your eligibility for this course:

Bachelor's Courses:

- Bachelor of Fisheries Science (B.F.Sc)
 4 years
- Bachelor of Science (Industrial Fish and Fisheries) 3 years
- B.Sc. (Fisheries) 3 years
- B.Sc. (Aquaculture) 3 years

One can pursue M.Sc in the following specializations:

- Aquatic Biology & Fisheries
- Coastal Aquaculture and Marine
- Fishery Science and Aquaculture
- Industrial Fisheries
- Marine Biology and Fisheries

Admission is given as per merit score of candidates and the availability of seats. Special quota for outside state candidates is allowed to the candidates who have

passed entrance exam of ICAR and are getting fellowship too.

In college a student can choose from an array of 60-plus subjects under departments like Aquaculture, Fisheries Biology, Fisheries Environment, Fishing Technology, and Fisheries Engineering. In each semester there are 5-7 courses. In the 7th semester, (final year) it's all experiential learning: in different groups a

Energize your Career... Empower the Nation!

NTPC Limited, India's largest power conglomerate has an installed capacity of 62,110 MW. Commensurate with our country's growth challenges, NTPC has embarked upon an ambitious plan to attain a total installed capacity of 130 GW by 2032.

NTPC is looking for 250 experienced Engineers in Electrical/Mechanical/ Electronics/ Instrumentation disciplines for Shift Operation of Thermal Power Plant and 25 Experienced Assistant Chemists for our Stations/Projects and details are as under:

A. Engineer (E2 grade, 250 posts)

Qualification

Engineering Degree in Electrical/ Mechanical/Electronics/Instrumentation with minimum 60% marks from recognized University/institute (passing marks for SC/ST/PwBD candidates). A candidate with the prescribed degree identified for the disciplines as given below can only apply in the respective discipline:

Discipline advertised	Prescribed degrees in Engineering
Electrical Engineering	Electrical / Electrical & Electronics / Electrical, Instrumentation & Control / Power Systems & High Voltage / Power Electronics / Power Engineering
Mechanical Engineering	Mechanical / Production / Industrial Engg./ Production & Industrial Engg./ Thermal / Mechanical & Automation / Power Engineering
Electronics Engineering	Electronics / Electronics & Telecommunication / Electronics & Power/ Power Electronics/ Electronics & Communication/ Electrical & Electronics
Instrumentation Engineering	Electronics & Instrumentation / Instrumentation & Control/Electronics Instrumentation & Control

Experience Requirement & Profile

Minimum 3 years post qualification executive experience (excluding training period) in Operation/ Maintenance /Erection / Construction /Engineering in Main Plant Thermal or Main plant Gas Power Plant. Out of 3 years, the candidates must have worked at least 2 years in power plant sites.

Upper age limit

30 years

Pay Scale

Rs. 50,000 – 1,60,000/- (E2 grade) at the basic pay of Rs. 50,000/-

B. Assistant Chemist (E1 grade, 25 posts)

Qualification

M.Sc in Chemistry from recognized Indian University/ Institute recognized by appropriate statutory authority with at least 60% marks in aggregate. SC, ST and PwBD candidates with pass marks are eligible to apply for the post.

Experience Requirement & Profile

Minimum 3 years post qualification experience in Executive/Supervisory cadre (excluding training period) in Water Treatment Plant process and water analysis (RO plant, DM plant, pre-treatment plant, etc.), Boiler water chemistry (boiler water treatment & analysis of chemical parameters), and Knowledge of Cooling water treatment, Bulk Chemical analysis, knowledge of analytical instruments (like spectrophotometer, Ion chromatography, Gas chromatography), Coal sampling and analysis, Oil analysis. Should have knowledge of environmental parameter testing, monitoring and management. Candidates with experience in power plant will be given added advantage.

Upper age limit

30 years

Pay Scale

Rs. 40,000 - 1,40,000/- (E1 grade) at the basic pay of Rs. 40,000/-

Vacancies

Discipline	UR	овс	sc	ST	Total	Identified type of disabilities for PwBDs
Electrical	44	17	10	04	75	1. Deaf and hard of hearing
Mechanical	63	28	17	07	115	2. Locomotor Disability (OA, OL
Electronics	15	10	03	02	30	including leprosy cured, dwarfism and acid attack victims
Instrumentation	15	10	03	02	30	Combination of 1 & 2
Asst Chemist	11	07	04	03	25	Locomotor Disability (OA, OL including leprosy cured, dwarfism and acid attack victims

*OA-One Arm, OL-One Leg

Vacancies for PwBD are as Govt. guidelines.

Vacancies for EWS candidates are as per Govt. guidelines subject to final outcome of SC order.

Health

The candidate should have sound health. Before joining, candidates will have to undergo medical examination by the NTPC Medical Board and the decision of the board will be final and binding. No relaxation in health standards is allowed. Detailed medical norms are available on the website www.ntpccareers.net.

General Conditions

- Only Indian Nationals are eligible to apply.
- All qualifications should be from Universities / Institutions recognized and approved in India.
- All computations of age/ experience requirement / qualification shall be done w.r.t. the last date of receipt of online application as mentioned in the advertisement. The date of declaration of result / issuance of Mark sheet shall be deemed to be the date of acquiring the qualification and there shall be no relaxation on this account. Post qualification experience on a post/ level shall be counted only from the said date onwards.
- 4. In order to restrict the number of candidates to be called for an interview, if so required, the Management reserves the right to conduct online screening/ selection test or to raise the minimum eligibility standards/ criteria, as per requirement. In case of selection test, the final selection shall be on the basis of 85% weightage of online written test marks and 15% weightage of interview marks. However, candidate has to qualify separately in online written test & interview. Candidates are required to indicate their choice for test centres at the time of online application. NTPC reserves the right to change the test centres depending upon the response/feasibility.
- 5. Candidates claiming to belong to any particular category shall necessarily submit a copy of OBC/SC/ST/PwBD certificate, as the case may be, from a Competent Authority. Upper age is relaxed by 5 years for SC/ST candidates, by 3 years for OBC candidates, by 10 years for PwBD candidates, by 5 years for candidates who had ordinarily been domiciled in the State of Jammu & Kashmir during the period 01.01.80 to 31.12.89. Relaxation of age to Ex-Serviceman as per Govt. guidelines. For SC/ST candidates, the total years of post qualification experience will be relaxed by 1 year.
- Depending on the requirement, the Company reserves the right to cancel / restrict / curtail / enlarge the number of vacancies, if need so arises, without any further notice and without assigning any reason thereof.
- Posting shall be at any of the Stations/ Projects/ JVs/ Subsidiaries of NTPC.
 All posts are transferable at the sole discretion of the Management.
- 8. While applying for any post, the applicant should ensure that he / she fulfills the eligibility and other norms mentioned above, as on the specified dates and that the particulars furnished are correct in all respects. In case it is detected at any stage of recruitment that a candidate does not fulfill the eligibility norms and / or that he / she has furnished any incorrect / false information or has suppressed any material fact(s), his/her candidature will stand automatically cancelled. If any of the above shortcoming(s) is / are detected even after appointment his / her services are liable to be terminated without any notice.
- The mere fact that a candidate has submitted application against the
 advertisement and apparently fulfilling the criteria as prescribed in the
 advertisement would not bestow on him/her the right to be definitely called
 for test/interview/ considered further for selection process.
- 10. Any proceedings in respect of any matter of claim or dispute arising out of this advertisement and / or an application in response thereto can be instituted only in Delhi and courts / tribunals / forums at Delhi only shall have sole and exclusive jurisdiction to try any such cause / dispute.
- In case any ambiguity/dispute arises on account of interpretation in versions other than English, the English Version will prevail.

How to apply

Interested candidates should log on to our website www.ntpccareers.net for applying. No other means/ mode of application shall be accepted. Candidates are required to possess a valid email ID. NTPC will not be responsible for bouncing back of any email sent to the candidates.

Candidate belonging to General/EWS/OBC category is required to pay a nonrefundable registration fee of Rs. 300/-. The SC/ST/PwBD/XSM category and

CAREER PROSPECTS IN FISHERIES

Continued from page 1

student can try hand at aquaculture or fish processing. In the next six months one get (Rural Awareness Work Experience) RAWE where with college funds and infrastructure you rear, sell fish and keep the profit. In the 8th semester, students get attached to a private/State aquaculture farm for industry internships, overseas training. The IVth -year syllabus contains practical experience like sea cruise for Data Collection & Fishing.

On-farm studies under Rural Agriculture Work Experience helps students to gain practical learning on aqua farms, hatcheries, fish processing units, value addition, resource management etc. through educational programme of ICAR.

After completion of B.F.Sc, candidates can opt for M.F.Sc (Master of Fisheries Science) for taking admission in Central Institutes in India through all India level Common Entrance Test conducted by ICAR. There are eight fisheries institutes under the ICAR set up in India mainly CIFE, CIBA, CIFA, CMFRI, CIFT, CIFRI, NBFGR and DCFR. These institutes are engaged in capture, culture, value addition processing, repository, conservation and biodiversity addressing educational and legal issues in addition to their mandate of research programme. You can complete UG, PG and Ph.D in the same campus and come out assured of a job, avenues for research or private business.

WORK DESCRIPTION

- Collecting, examining and analysing fish samples
- Developing measures and techniques to increase the population of endangered species of fishes
- Developing measures and techniques to decrease the overpopulated species of fishes
- Examining the symptoms and causes of diseases in fish and how they respond to fight that disease

- Observing the environmental conditions that support lives of fish in a particular surrounding
- Identifying with and developing ways to solve the environment of fish and related problems
- Developing and suggesting ways to protect environment of fish and decrease water pollution

SKILLS REQUIRED

You need passion for water, be ready to wet your feet. On board fishing vessels you will learn navigation, fishing technology and marine biology. And will get used to sea-sickness. You need the aptitude to work with living organisms rather than machines. This is more challenging and adventurous. Here you can create your own paths by swimming against the stream.

The field requires a lot of research work and one should research oriented mentality. As fishery science is to deal with a living creature and its habitat and environment thus the aspirant must have a curiosity and interest in marine life. Aspirants must have devotion and dedication towards the work and should be able to take quick and spontaneous decisions. For aspirants who are working in the fishery business needs to have good managerial and team working skills.

CAREER OPPORTUNITIES IN FISHERY SCIENCE

Career opportunities are available in government and private organizations, fisheries, consulting, business, environmental law, etc.

- Aquaculturist
- Fisheries Biologist
- Environmental Consultant
- Inspector of Fisheries
- Self-Employment
 JOB OPTIONS
- State Government Fisheries
 Departments absorb
 graduates for posts of AFDO/
 FEO/District Fisheries
 Development Officer.

- Central Government jobs are in MPEDA, Fisheries Survey of India (FSI), NIO, WHO, FAO, NACA, NABARD, EIA.
- Academic institutes welcome Research Assistants, Biochemists, Biologists, Technicians, and so on. Candidates with MFSc can become Assistant Professors.
- For recruitment as scientists in various agricultural and fisheries institutions under the ICAR, ASRB conducts an all-India ARS exam, followed by viva-voice.
- In banks, fisheries graduates can get jobs as a field-officer, managers in agriculture loan section.
- One can start an enterprise like feed manufacturing, ornamental fish culture, aquaculture, hatchery/seed production, commercial pearl production, fish processing, net-making fish clinics. Financial support can be obtained through NABARD/ nationalised banks.
- In the private sector, one can work as officers in seafood processing/export units, aquafeed plants, fishing gear industries, pharmaceutical companies. Skilled manpower is needed in design/ construction/ management of fish forms.
- You could participate in deep sea exploration or apply for overseas jobs.
- One can apply for government jobs or in aquabased companies

Private research companies in India and abroad are also entering into this field with large investments. Fisheries graduates are in great demand for fisheries professional in the aquaculture and processing sectors in gulf and African countries.

TOP RECRUITERS

- Fisheries Development Board
- Food Department
- Banks
- Food Processing and Technology
- Fish Breeding Farms

The fisheries graduates and higher qualified personnel gets good job opportunities with attractive salary and perks. They are appointed as Assistant Director, Research Assistant and Fisheries Inspector etc. in government establishments. The government sectors offer a pay which is less compared to the private sector but is stable. In private sector, a post graduate in fisheries sciences has lots of opportunities to work as Quality Control Officer, Fish Processor, Aquaculturist, Farm Assistant/ Manager etc. The pay varies according to the type of job and specialization of the candidate.

- The work is practical and hands-on, with plenty of outdoor work.
- The demand for the field is on the rise
- Professionals get to explore a number of opportunities, such as fish export, fish breeding, aquaculture, fish food production manager, etc.

Challenges

- The job requires working in marine bodies and deal with fishes, which not be suitable for all.
- Irregular and long working hours.

INSTITUTES FOR FISHERIES SCIENCE:

National/ State Fishery Institutes:

- Central Institute of Fisheries Education, Versova, Mumbai
- Central Institute of Brackishwater Aquaculture, Chennai
- National Bureau of Fish Genetic Resources, Lucknow
- Central Institute of Fisheries Nautical and Engineering Training, Kochi, www.cifnet. nic.in
- Tamilnadu Fisheries University, Nagapattinam, TN, www.tnfu.org.in
- Indian Institute of Technology, Kharagpur, W.B, www.iitkgp. ac.in
- Andhra University, A.P, www.andhrauniversity.edu.in
- Goa University, Goa www.unigoa.ac.in

Fisheries Colleges under State Agricultural/ Veterinary Universities:

- College of Fisheries, Shirgaon, Ratnagiri, (DBSKKV) www.dbskkv.org
- College of Fishery Science, Telangkhedi, Nagpur, http://cofsngp.org
- College of Fisheries, Mangalore, Karnataka, www.kvafsu.kar.nic.in
- Punjab Agriculture University, Ludhiana, www.pau.edu
- Institute of Fisheries
 Technology, Thiruvallur,
 Chennai
- College of Fisheries Science, WB, www.wbuafscl.ac.in
- College of Fisheries, Gujarat, http://www.gsauca.in

India stands on the seventh position in the export of fish in the world. Fishery is an important vibrant sector witnessed as the primary source of protein for millions of the people. India's long coastline with rich biodiversity offers great scope for aqua-farming of fish, crustaceans and aquatic plants for recreation or consumption. The sector is considered to be equally important due to the dependence of large section of poor fisherman community as a source of income main generating livelihood source. This has been a highly potential sector to offer huge opportunity exists for the development of fisheries through aquaculture and mariculture farming practices

The main objective of fisheries science is to make available the much needed technically competent extension personnel for transfer of technology. It helps a person to assist the research and development; to develop and execute fisheries development plan.

Fisheries are a sunshine sector in India.

female candidates need not pay the registration fee. The payment can be made either in **online or offline mode**.

A. Payment in offline mode

State Bank of India has been authorized to collect the registration fee, in a specially opened account (No. 30987919993) at CAG branch, New Delhi, on behalf of NTPC. Candidate has to approach the nearby SBI branch with a printout of the "pay-in-slip" which is available on the application registration portal. The pay-in-slip printed from the portal should only be used for depositing the fee for proper crediting of amount in the allocated account. On receipt of the money, the bank will issue a unique Journal Number and a Branch Code of the bank collecting the money. This journal number and the branch code are to be filled up by the candidate during online registration. NTPC will not be responsible in case the candidate deposits the fee in a wrong account.

B. Payment in online mode

Candidate also have the option to pay the fees online (through Net banking / Debit Card / Credit Card). The online payment option will be available in the website. The candidate is required to make the payment before proceeding for online application. After making successful payment, the Challan number, Bank Reference No, date of payment are required to be filled up in online application.

Continued from Previous Page Fee once paid will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility before paying the registration fee.

Candidates will be required to upload their photograph, signature and proof of payment of application fee during the online application. All attachments to be in JPG/JPEG format <500 KB size.

After applying online, candidate is required to download the registration slip generated by the system with unique registration number. Copy of registration slip may be retained by the candidate for future reference. No document is required to send to us by post.

It is mandatory that eligible candidates go through the full text of the advertisement and agree to all the conditions given, while applying for the post.

Commencement of online registration of application 15.07.2020

Last date for online registration of application 31.07.2020

ANNEXURE-I

F. NO. 1-6/2019 Adm-I **GOVERNMENT OF INDIA MINISTRY OF CULTURE**

ARCHAEOLOGICAL SURVEY OF INDIA

ADMINISTRATION-1 SECTION

Filling up one (01) post of Additional Director General (Archaeology) Group 'A' (Gazetted) in level 14 of the pay matrix (Rs. 144200-218200/-) in Archaeological Survey of India.

It is proposed to fill up one (01) post of Additional Director General (Archaeology) Group 'A' (Gazetted) in level 14 of the pay matrix. (Rs. 144200-218200/-) in the Archaeological Survey of India by [Deputation (including short term contract)] from officers under the Central Government, State Government, Union Territories or Universities or Public Sector Undertaking or Recognized Research Institutions or Semi-Government or Statutory and Autonomous Organization and :-

(a) (i) Holding analogous post on regular basis in the parent cadre or department; or (ii) With three years; service in the grade rendered after appointment thereto on a regular basis in posts in Level 13 in the Pay Matrix: Rs. 118500-214100/- or equivalent in the parent cadre or department; and

(b) Possessing the following educational qualification and experience:-

- (i) Master's Degree in Indian History with Ancient Indian History or Medieval Indian History as a subject or Master's Degree in Archaeology or Anthropology with Stone Age Archaeology as a subject or Master's Degree in Geology with Pleistocene Geology as a subject, from a recognized University or Master's degree in Sanskrit or Pali or Arabic or Prakrit or Persian or Tamil or Telugu or Malayalam or Kannada or History of Art with Ancient or Medieval Indian History as a subject from a recognised University.
- (ii) Ph.D in Indian History or Archaeology or in any of the languages mentioned in (i) above.
- (iii) Ten years experience in the field of Archaeology under Government or Semi-Government organization or Autonomous institutions with at least 5 years experience in Administrative matters.

Note-1: The Departmental Officers in the feeder category who are in the direct line of promotion shall not be eligible for consideration for appointment on deputation or absorption. Similarly, deputationists shall not be eligible for consideration for appointment by promotion.

Note-2: Period of deputation (Including Short Term Contract) including period of deputation (Including Short Term Contract) in another ex-cadre post held immediately preceding this appointment in the same or some other organization or department of the Central Government shall ordinarily not to exceed five years. The maximum age limit for appointment by deputation (including short term contract) shall not be exceeding 56 years as on the closing date of receipt of application.

Note-3: For the purpose of appointment on deputation basis the service rendered on a regular basis by an Officer prior to 1st January 2006, the date from which the revised pay structure based on the Sixth Central Pay Commission recommendations has been extended, shall be deemed to be service rendered in the corresponding grade pay or pay scale extended based on the recommendations of the pay commission except where there has been merger of more than one pre-revised scale of pay into one grade with a common grade or pay scale, and where this benefit will extend only for the post for which that grade pay or pay scale is the normal replacement grade without any upgradation.

3. Duties of Additional Director General (Archaeology)

- (I) Assisting the Director General in matters relating to;
- 1. Implementation of Ancient Monuments and Archaeological sites and Remains (AMASR) Act, 1958 (updated as per the AMASR (Amendment and Validation) Act
- 2. Laying down the Archaeological policy in the country.
- 3. Archaeological excavations and explorations.
- **4.** Protection of monument.
- 5. Cultural Exchange Programmes.
- 6. Bringing out of Archaeological Publications.
- 7. Epigraphical research.
- 8. Public Awareness on cultural heritage.
- (II) Represent the Directorate in various conferences, meetings, seminars in the country and abroad besides those connected with Archaeological research and UNESCO Conventions.
- (III) While representing the Director General wherever considered necessary, he/she would look after research and publication activities of the Survey.

4. GENERAL TERMS AND CONDITIONS FOR POST AS UNDER

- 1. Applications in duplicate in the given proforma (Annexure-A) along with the complete and up-to-date ACRs/APARs of the Officers who can be spared in the event of his/her selection, may be sent to the undersigned through proper channel within 60 days from the date of publication of this advertisement in the Employment News. Application received after the last date or otherwise found incomplete will not be considered.
- 2. While forwarding the application, it may be verified and certified that the particulars furnished by the officers are correct and that no disciplinary action/court case filed by/against the officers is pending or contemplated against the officers and also no major/minor penalty has been imposed on the officers during the last ten years.
- 3. The officers who apply for the post will not be allowed to withdraw their nomination subsequently.
- 4. Initial place of posting: Office of the Director General, Archaeological Survey of India 24, Tilak Marg, New Delhi - 110001

(M.Jena) Dy. Director (Administration) Archaeological Survey of India 24, Tilak Marg, New Delhi - 110001

PRAGYATA: GUIDELINES FOR DIGITAL EDUCATION

EN Team. PIB

hile digital or online education cannot replace classroom learning, It has some advantages. It allows flexible and personalized learning at the speed of the learner and one can continuously augment and expand content through digital means. The rapid increase in internet penetration and various government initiatives such as Digital India campaign have created an environment conducive for moving towards digital education. The recently launched PM e-Vidya by the Ministry of Human Resource Development (MHRD) seeks to unify all efforts related to digital/online/on-air education. This includes, DIKSHA (one nation - one digital platform), TV (one class-one channel), SWAYAM (Massive Open Online Courses-MOOCS on various topics), IITPAL (platform for exam preparation), AIR (through community radio and CBSE Shiksha Vani podcast) and study materials for differently-abled students developed by NIOS (National Institute of Open Schooling). All these areas of e-learning shall be expanded and developed further in a systematic and unified manner by the MHRD in phases. The ministry has formulated certain guidelines from the perspective of learners, with a focus on online/blended/digital education for students. These guidelines also provide a roadmap or pointers for carrying forward online learning and teaching to enhance the quality of education.

Concept of Digital Education

Digital education is an evolving area which is primarily concerned with the teaching- learning-process using digital medium. This has evolved from activities such as sharing of text resources and students submitting assignments online to availability of various types of content such as audio, video and multimedia resources. The continuous advancement in the field of Information and Communication Technology (ICT) and the internet (with virtually unlimited supply of digital resources) has made multiple modes of digital education possible. With regards to the availability of digital infrastructure, Indian households can be classified nto six categories.

- Households with computer/laptop/mobile phones with 4G internet connection as well as TV set with DTH/cable connection.
- Smartphone with 4G network
- Smartphone with limited 3G/2G or no network connection
- TV set with DTH/cable connection
- Radio set or basic mobile phone with FM
- No digital device

However, there are many households with none of the above facilities while we are focusing on the mechanisms of teaching and learning with the help of digital/online education. There are two kinds of online learning and teaching that schools will need to balance based on the feasi-

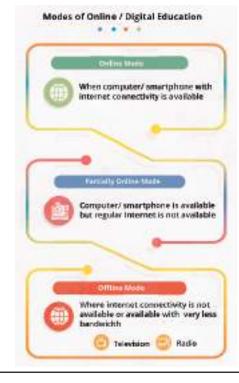

Synchronous: This is real-time teaching and learning that can happen collaboratively and at the same time with a group of online learners or even individually, and usually a teacher, or some method of instant feedback; examples of synchronous learning are online teaching through video conference (two-way video, one-way video, two- way audio), audio conference (two way audio) using satellite or telecommu-

Asynchronous: This is anytime, anywhere learning but not connected on real time, for example, emails, SMS, MMS, surfing e-content on DIKSHA, listening to radio, podcasts, watching TV channels, etc.

Schools should not assume that teaching-learning through synchronous communication is the only requirement or even desirable in order to support effective digital learning. The goal is NOT to try and recreate face-to-face (F2F) classrooms over the internet. Anytime, anywhere, online and blended learning provide opportunities for learners to work more independently, expand their agency, intellectual horizon, learn to use tools and strategies that otherwise may not be feasible in classrooms for teaching-learning and assessment.

Modes of Digital Education

Depending upon the availability of ICT infrastructure, one can choose an appropriate mode for implementing digital education.

In situations where internet connectivity is not available or available with very less bandwidth, resources are shared through various platforms like television, radio etc. that don't depend on internet connectiv-

Majority of along with DTH/ Cable Some of

as part of

education

Model 1: Class wise and topic-wise resources transmitted on TV channels (DTH and Cable TV) like SWAYAM Prabha, Vande Gujarat, Victor Channel, MANA TV etc. Such contents can be easily accessed and utilised by students and teachers using television available at

Model 2: Sharing through pen drive/ DVD/ CD with class wise topic wise resources like video lectures/ demonstrations/ stories etc that be viewed through some of the resources newer sets TV if available at

Model 3: Incase where TV is also not available with student community television which is available in panchavat union office, or in public places can be used for mass education.

Radio - it is perhaps the nost cost effective medium when TV is also not available or

supply is

Model 1: Class-wise, topic-wise audio content can be broadcasted through dedicated radio channels with support of AIR. Audio programmes organised through All India Radio (AIR) stations as per

Model 2: Community/ FM radio channels utilised to broadcast teaching-learning resources and at times customised to address the

Model 3: Incase where radio is also not available with student. community radio, if available in panchavat union office, or in public places can also be utilised alone with loud speakers for mass education in some generic areas.

Steps for Digital and Online Education

Being one of the most effective ways to ensure continuity in school education, digital education presents several advantages over face-toface classroom teaching. Parents may also desire to know more about the how, what and where of providing online education as well as its real-time online conduct so that their children do not get overly stretched or stressed, or get affected negatively (postural defects, ophthalmic issues, and other physical problems) owing to its prolonged use.

In many schools across India, the MHRD has been funding computer labs, smart screens, etc. Twenty-nine States/UTs are already onboard DIKSHA, a digital platform. Slowly, but surely, many teachers in several states/UTs are getting used to integrating ICT in the classroom process.

The need for proper planning is as much essential for the conduct of successful face- to-face teaching learning sessions as for online ones. For example, for face-to-face, the state department plans to provide textbooks every year, creates an annual calendar, assessment plan, etc. and schools make a timetable as well as plan on how to complete their syllabus. Similarly, teachers not only plan for a given session, but also prepare weekly and monthly plans along with formative and summative assessments, co- curricular activities, projects etc.

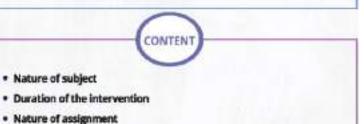

- · Number of students in each class
- Duration and time schedule

Nature of assessment

- Availability of digital devices for teachers or for the school
- Availability and accessibility of quality resources for the teacher
- · Safe and secure digital environment
- Competencies of teachers in handling digital/ online classes

- Physiological factors like age, class, physical disabilities that requires
- Psychological factors like interest, learning style, motivation to dents, intellectual disabilities that requires special attention
- Sociological factors like language of the student, availability and accessibility of digital gadgets and facilities, parental support

The second step would be to undertake a review after deciding different modes or tools for different sets of students and after identification of all available resources for the teacher/school. This would be a review of the plan in terms of time/duration, quality of resources, scope of assignments, methods of assessment, as well as cyber security and related safety concerns. While undertaking a review, teachers may decide to join hands with other teachers and share the responsibility of talking to parents or students individually or in groups to guide them on all the subjects one by one in view of saving time and the availability of technological tools with students.

After undertaking a review of all the information and resources which have been collected, their proper arrangement and organization for their daily/weekly or monthly transaction must be done. It is also to be decided, how follow-up can happen with students in the case of teachers and by School Heads in the case of teachers.

Teachers need to inform parents or students about the themes/topics to be learnt by the students under the guidance or via self-study (whatever, the case may be). Using different modes like instant messaging, SMS, teachers may guide each and every student on the following

Learning outcomes decided to be taken up for the session that the teacher is planning for the students.

Themes/topics which help achieve progress in selected learning out-

Reflection and Construction

During their guidance, teachers must clarify that talk, chat, discussion, etc. must happen among the members of the groups (created among students), parents and their wards, and with teachers, so that students take an interest in studying the themes and doing the activities. After completing two or three themes, teachers can give some interesting assignments to the children. These may be group activities or individual assignments, depending upon the technological tools available to

Tracking or follow-up of the given session and assignment is very necessary, otherwise, children will lose their interest, if they do not get response from their teacher or parents on their work or assignment. Teachers need to track progress either on social media like WhatsApp or by calling them and asking them to show what they have done or if this is not possible, then by telling them that they must keep these assignments in a file and bring those to school when they re-open. If work is incomplete, teachers may again guide them by selecting another pedagogy if the earlier one has not worked. Teachers will have to make a tracker of habits, skills and values developed in students as they have been learning/receiving education using alternative approaches. They may have their own criteria and need to observe these while talking to students in a group or by talking to the parents.

On every completed task, teachers must compliment children by sending messages, calling them and appreciating them. Since the teacher is not physically with them and children do not have the opportunity to see teachers' expressions or listen to their praise, which may be boring or demotivating about getting online education. Through gestures of appreciation, teachers can make students feel that they love them, care for them and feel happy when they progress in their learn-

nentation of Digital Education

 Keeping overall development of students in mind, the Ministry of Human Resource Development recommends the following screen-

Class	Recommendation
Pre Primary	On a given day for interacting with parents and guiding
	them, not more than 30 minutes.
Classes 1	Recommended to adopt/adapt the alternative academic
to 12	calendar of NCERT at http://ncert.nic.in/aac.html
	Pre Primary Classes 1

Recommendation Classes 1 Online synchronous learning may be undertaken for not more than two sessions of 30-45 minutes each on the days the States/UTs decide to have online classes for primary sections Online synchronous learning may be undertaken for not more than four sessions of 30-45 minutes on each of the days as decided by States/UTs.

- Use Instant Messaging/Chat groups/emails involving parents (wherever required) for sharing important information, resources, suggestions and follow up activities
- Post a weekly announcement to provide an overview of the coming week's topic or a recap of the previous week's work, or both.
- Teachers may share e-content with students and parents and guide them how to use those contents using available gadgets at home.
- Provide time to time feedback on the responses and performance of students in the assigned tasks.
- · School head may interact regularly with teachers and parents (at least once a week) to get feedback
- Where parents are not in a position to support students in digital learning, suggest alternative support like peer learning and seeking help from neighbours, , identified local volunteers, etc.
- Teachers may themselves select the contents based on the following criteria and circulate among students and parents to help them choose appropriate digital media: that are 'age-appropriate' that it matches with children's needs, abilities, and interests, have clear learning goals, content is meaningfully presented and contextualized and culturally responsive.
- Suggest activities that are age appropriate, simple to do at home and have learning goals that focus on building concepts/ skills among children. Activities that are meant for holistic development, and parents can easily assist their children in doing the activities. Encourage children to explore, observe and experiment using objects easily available in their surroundings/ localities.

Cyber Safety and Privacy Measures

- Students, teachers, and parents may be oriented on Do's and Don'ts of cyber safety and security.
- Make students aware about cyber bullying and how to avoid getting bullied. Also, encourage them to refrain from cyber bullying.
- Do not share personal information, textual communications, videos or images of students on social media for any purpose including advocacy and showcasing your work. Create a congenial, safe and secured online learning environment. Communicate often with students with utmost clarity on do's and don'ts of engaging with digital

Teacher Preparation

Teacher preparation for digital education is a two fold process. The first is the requirement of teacher preparation for adopting digital technology for teaching their students more efficiently. The second is to use digital medium to keep abreast of new development in education for their own professional growth. Teachers must be ready to harness the potential of digital technology to keep them professionally up to date.

- Explore digital technologies (LMS, apps, web portals, digital labs etc), repositories of Open Educational Resources (OERs) at national/ State/global level
- Attend webinars, online training programmes, online courses on ICT-Pedagogy- Content integration
- Use appropriate technology for teaching learning & assessment • Use digital resources embedded in Alternative Academic Calendars
- (AAC) developed by NCERT for different stages. • Be part of forums, interest groups and online communities to interact
- with peers and know how the rest of the world is doing with digital
- Get acquainted with copyrighted as well as Free and Open Source (FOSS) e-contents and tools for learning. Teachers can be made aware to use open resources as everything on the Internet is not available for free download or sharing.

Guidelines for Parents

The COVID-19 has brought with it many new challenges in the learning spectrum for parents, families and especially children. Parents' role will now be amplified to keep their children engaged in learning and at the same time to look after their emotional well-being as well as physical health. As the child will feel a range of emotions during this time, the role of the parent may include providing encouragement and support.

Especially young children do not have so much vocabulary to express/describe their emotions and thus parents and family members need to be very careful to watch over the digital behaviours. Keeping in mind the detrimental effects of the internet and gadgets, judicious use

of the internet may be monitored by the parents. Following are some of the suggestions made in this guideline that parents can follow.

Physical and Mental Well-Being

- · Parents may interact with children on a regular basis to know their physical and mental well being.
- Watch out for signs of anxiety, depression /anger during digital learn-
- Check if your child is becoming very secretive about his or her online activities. For example, not talking to you, deleting history of the internet browser, using encryption software, or quickly flicking the screen display when he/she sees you. It's better to talk openly about your own internet use and encourage your child to do the same.
- Explain and talk about basic hygiene and healthy lifestyle practices for protection during COVID-19 using digital resources. There are plenty of digital resources (videos, animations, booklets, etc) available in the web.
- Combine online time with fun filled offline play, games and other activities, so that there is a balance between the screen time and the
- Parents may ensure the involvement of their wards in physical activities such as yoga, exercises, etc. during breaks from digital learning.
- Keep TV/ laptops/ computers etc in a common area and definitely out of bedrooms. This will help in restricting usage time and you can easily keep an eye on the child's overall usage of digital devices.
- Develop digital rules in consultation with children, and follow it. The plan could cover things like screen-free areas in home, internet safety rules, duration of watching TV, surfing the web, etc. Talk with children regularly to help them understand the importance of responsible use of the internet rather than scolding.
- Discuss with children about netiquettes like not to post hurtful messages about others, not to post photos, videos and other information without permission of that person online; think before posting one's photos, videos or other data in social media and other places.
- Discuss and enquire if the child is spending too much time on the Internet or mobile, predominantly in instant messengers, forums, texting messages, etc.
- If aware, may use parental controls in devices and enable safe search in browsers while children are surfing the web.
- CBSE has recently released a manual on cyber security for learners. Parents may like to go through it on http://cbseacademic.nic.in/web_ material/Manuals/Cyber_Safety_ Manual.pdf and also scan the QR codes in the manual and watch the videos related to it.

Supporting Online Learning of Children With Special Needs (CWSN) Children with special needs may require assistance and support from respective teachers. Following are the guidelines that may provide clarity on ways to ensure a hassle-free access to online teaching.

The postures and practices a person adopts throughout the day while using digital devices can have a significant impact on one's health and well being. Staying in the same posture for prolonged periods is undesirable. Besides, prolonged exposure to digital devices can have negative impacts on other aspects of health and wellbeing also. How to sit on a table for learning by laptop or mobile is very important.

- · Malpractices on the internet and other safety, security and ethical issues may be reported to adults/teachers by the students. If teachers are also facing such issues they may report it to authorities and subsequently to the police.
- Students may be oriented to the responsible uses of the internet and how its misuse can cause harm to one's academic, personal, social and mental wellbeing
- Teachers and adults may be visilant enough to pick up clues for unusual behavior of any student and connect them to counsellors for help. Examples of such behavior are negative emotional states such
- A. Depression manifested as dysphoria, hopelessness, devaluation of life, self- deprecation, lack of interest or involvement, and inertia,
- B. Anxiety manifested as restlessness, fatigue, trouble concentrating, irritability, muscle tension, trouble sleeping (insomnia) and
- C. Stress or tension manifested as difficulty relaxing, nervous arousal, and being easily upset or agitated, irritable or over-reactive, and

Learning Environment

• The learning environment needs to have proper lighting, ventilation. One cannot participate in a video call when there is too much external noise. Audio-video content should not be played in the middle of an online session. An earphone may be used if available.

Government of India Ministry of Defence **Defence Res & Dev Organisation Directorate of Personnel**

Room No. 266, 2nd Floor, DRDO Bhawan, Rajaji Marg, New Delhi-110105 Tele: 011 - 2300 7298, Fax: 011 -2301 4576

DOP/AA-1/68058/DEPU/19-20(SAO-I)

FILLING UP OF THE POSTS OF SENIOR ADMINISTRATIVE OFFICER GRADE- I IN DEFENCE RESEARCH & DEVELOPMENT ORGANISATION, MINISTRY OF **DEFENCE ON DEPUTATION BASIS.**

It is proposed to fill up the post of **Stores Officer** in Defence Research & Development Organisation, Ministry of Defence, on deputation basis (including short term contract) from amongst officers under the Central or State Government or Union Territory or Recognised Research Institutions or Public Sector Undertaking or Semi-Government or Autonomous Organisations or Technical Organisation, as per details given at Annexure-I.

- 2. The selected officers will be entitled to normal deputation terms as admissible under the Central Government Rules in force from time to time (i.e. as per DOP&T norms).
- **3.** The period of deputation (including short-term contract) including period of deputation (including short-term contract) in another ex-cadre post held immediately preceding this appointment in the same or some other Organisation/Department of the Central Government shall ordinarily not to exceed three years. The departmental officers in the feeder category who are in the direct line of promotion shall not be eligible for consideration for appointment on deputation. Similarly, the deputationist shall not be eligible for consideration for appointment by promotion. The maximum age limit for appointment on deputation (including short-term contract) shall not exceed 56 years, as on the closing date of receipt of applications.
- 4. The application in the Proforma as given in Annexure-II may be sent through proper channel to Shri Pravin Kumar Das, Dy Director (Pers-AA-1), Directorate of Personnel, Room No. 266, 2nd Floor, DRDO Bhawan, Rajaji Marg, New Delhi 110 011 within 60 days from the date of issue of this circular/ advertisement in the Employment News alongwith the following:
- (a) Complete and up-to-date attested photocopies of APARs of the officers for the last 5 years (i.e., 2014-15 to 2018-19). Photocopies of APARs must be attested on each page by an officer not below the rank of Under Secretary or equivalent. Photocopies of APARs which are not attested by an officer of the rank of Under Secretary or equivalent shall not be accepted.
- (b) Certificate/statement of major/minor penalties imposed on the officer during last 10 years; and
- **(c)** Vigilance and disciplinary clearance and integrity certificate in respect of those who could be spared in the event of their selection.
- (d) Certificate by the Cadre Controlling Authority as per given proforma.
- 5. Application received after the last date or without any of the aforesaid documents/information or otherwise incomplete will not be considered and no representation of such/ similar nature will be entertained.
- **6.** While forwarding the application, it may be verified and certified that the particulars furnished by the officer are correct, that there is no doubt about the integrity of the officer and no disciplinary case is either pending or contemplated against the officer.

(Pravin Kumar Das)
Dy Director (Pers-AA-1)
for Chairman DRDO
Annexure-I

PRAGYATA: GUIDELINES FOR DIGITAL EDUCATION

Continued from page 13

National Initiatives for Digital Education and Teacher Preparation

PM e-Vidya Program

Realizing the importance of digital education and its ability to ensure continuity of school education even in the current scenario, a programme for multi-mode access to digital/ online education was launched on 17th May, 2020 under the PM eVidya Program. As a comprehensive initiative, PM eVIDYA envisions to unify all efforts related to digital/ online/on-air education, benefitting nearly 25 crore school going children across the country. The initiative includes:

DIKSHA- One Nation One Digital Platform

DIKSHA, a globally unique, made in India initiative for effective teaching and administration has increased its footprints manifold since the time of its inception. As on date, almost every States/UT utilizes DIKSHA for augmenting teaching and learning processes via curriculum linked curated content and provides access to 80,000+content pieces across grades, mediums and subjects. In a span of less than 3 years, DIKSHA has gained unparalleled momentum and is gaining prominence amongst endusers. The primary audience of DIKSHA are students, teachers and parent communities due to the ability of DIKSHA to break the barrier of access and provide contextualized content in 18 languages. Moreover, the digital content on DIKSHA is freely accessible and can be further distributed without incurring any cost. Even the consumption of content does not require the users to invest in proprietary tools or technology, ensuring that the content on DIKSHA can be used by one and all and even at the grass root levels. DIKSHA can be accessed at https://diksha.gov.in/

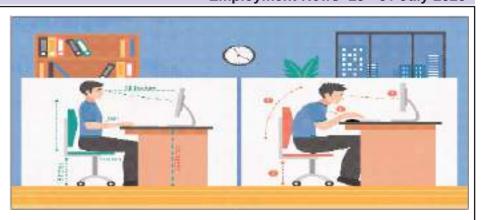

TV Channels- SWAYAM PRABHA

SWAYAM PRABHA is a group of 32 DTH channels devoted to telecasting high quality educational programmes. The programmes cover school education across grades providing modules for teacher's training as well as teaching and learning aids for children of India through 4 channels to help them understand the subjects better and help them in preparing for competitive examinations for admissions to professional degree programmes. It focuses on providing one channel per grade with a sample weekly schedule to help teachers and students understand the modules to be emphasized upon during the week. The schedule will be available on https://www.swayamprabha.gov.in/. Moreover, to maximise the reach of the content, SWAYAM PRABHA is available in Hindi, English and Urdu.

SWAYAM

Under the Digital India Initiative of Government of India, NIOS has been identified as one of the partners for the National MOOC initiatives for "Study Webs of Active Learning for Young Aspiring Minds (SWAYAM)". The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged.

- NCERT has launched 34 online courses for students (Classes XI-XII) and teachers on the SWAYAM portal.
- NIOS offers 18 MOOCs courses at Secondary level and 20 courses at Senior Secondary level.
- The MOOCs are developed using the four-quadrant approach text in PDF, a teaching video, self-assessment exercises; and discussion forum.
- These can be accessed at www.swayam.gov.in
 Students and teachers can access all the course modules (text, videos and assessment questions) for free by logging on to: https://swayam.gov.in/

Radio and Community Radio

Alternate between sitting and standing as much as possible.

- Internet radio is an audio service that is accessible from anywhere in the world.
- Mukt Vidya Vani (MVV) i.e. Open Education Radio facility will provision educational and informational content for better learning. The web radio will ensure learners with a stream of audio that can be paused/replayed. NIOS organizes live interactive webstreaming of Personal Contact Programmes (PCPs) for various subjects of Secondary, Senior Secondary and Vocational courses for its learners through MVV. The recordings of these audio PCPs are available 24x7 on NIOS website at https://nios.iradioindia.in
- Radio Vahini FM 91.2 MHz, the Community Radio Station of NIOS is a means of extending education to school dropouts, learners enrolled through ODL, urban women and to marginalized sections of the society with access to radio. Radio Vahini broadcast is available 24x7 and reaches up to 6-10 kilometers covering approximately 10 lakh listeners including learners.
- CBSE Podcasts: Shiksha Vaani is an audio-based learning initiative of CBSE and is available via Android App store. The podcasts cover various subjects of secondary and senior secondary level and are available in English and Hindi. As on date, more than 400 audio files mapped to NCERT curriculum are available on Shiksha Vaani. Special eContent for Visually and Hearing Impaired
- NIOS offers content for specially abled students such as content in Indian sign language for hearing impaired learners and ePub and DAISY enabled 'talking books' for visually impaired learners.
- NIOS has developed more than 270 videos in sign language across 7 subjects to provide educational access to learners at secondary level and Yoga courses.
 Videos can be accesses at https://www.youtube.com/ playlist?list=PLUuOqp8 QaNB1SkqZURX0RGcaomsPfkDsl

Online Coaching

The Department of Higher Education has provisioned for online learning for preparation of competitive examinations to bridge the divide among the students due to private coaching.

- IITPAL (IIT Professor Assisted Learning) is a series of lectures prepared by IIT professors to help students prepare for IIT JEE. IITPAL videos are broadcasted on Swayam Prabha channels.
- National Test Abhyaas is a personalized adaptive learning application for students enrolling in competitive examinations conducted by the National testing agency.
- However, across these channels, third party e-content and digital content are available through different You-Tube channels which should be avoided to ensure availability of highly curated and age-appropriate content for the overall development of students and teachers.

In a country like India characterised by multifarious diversity and constraints in terms of availability of resources (ICT infrastructure, electricity, budget, skilled manpower), switching over to digital modes of education is full of challenges. A local, decentralised planning and implementation is the need of the hour for which various States/ UTs level organization such as SCERTs, School Boards, DIETs, BIETs, CTEs, IASEs and National level organisations such as NCERT, CBSE, NIOS, KVS, NVS need to join hands for a change that will sustain post COVID-19 also. Such collaboration will help to continuously enhance the quality of education and skill development of the large student population and we can leverage the demographic dividend in coming years.

WHY MANGROVES MATTER ...

Continued from page 1

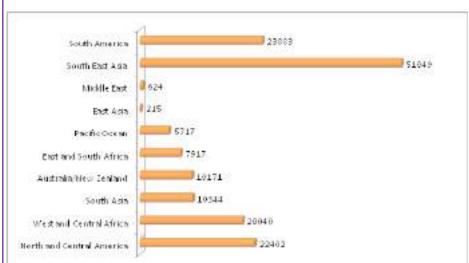

Significance of Mangroves:

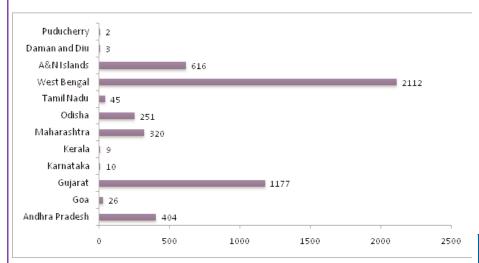

Distribution of Mangroves:

Mangroves globally cover an area of only around 152,000 km² in 123 tropical and sub-tropical nations and territories (World Atlas of Mangroves, 2010). In India, mangrove cover is 4975 sq.km as per the latest report of Forest Survey of India (FSI) which is 0.15 % of the country's geographical area. There has been a net increase of 54 sq.km in the mangrove cover as compared to 2017 assessment conducted by FSI. Mangrove vegetation provide ecological niches for a wide variety of organisms. India harbors three types of mangrove habitats-deltaic, backwater estuarine and insular (International Union for Conservation of Nature and Natural Resources). The deltaic mangroves are found along the Bay of Bengal on the deltas of Ganga, Brahmaputra, Mahanadi, Krishna, Godavari and Cauvery. The estuarine type occurs in the west coast in the funnel shaped estuaries of the Indus, Narmada and Tapti. Insular type mangroves are found in the Andaman and Nicobar Islands.

Distribution of mangroves worldwide (sq. km); Source : World Atlas of Mangroves, 2010

Distribution of mangroves in India (sq.km), Source : India State of Forest Report, 2019

Challenges & Management:

As per Director, Zoological Survey of India 2017 globally mangroves are disappearing three to five times faster than overall global forest losses. The declining rate of mangrove forest in India is 1 % per year, that is if nothing is done to remedy it then in 100 years they will completely vanish. (Director, Zoological Survey of India

2017). This shall have ecological and socio-economic impacts. Various factors like urbanisation, industrialisation, and aquaculture (farming of aquatic organisms such as fish, prawns, molluscs) are posing severe threats to mangroves. Further due to climate change especially sea level rise in low lying coastal areas, the mangrove habitat are under risk. Studies indicates that already 40 per cent of mangrove forests in India have been lost over the last three decades.

For management of mangroves, the Ministry of Environment, Forests and Climate Change (MoEF&CC) implements Centrally Sponsored Scheme called Conservation and Management of Mangroves. Under the scheme 100% central assistance is provided to the Coastal States/ Union Territories for 'Core' and 'Ancillary' activities in 80:20 ratio for implementation of the their approved Management Action Plans. The components of Management Action plan comprise of survey, assessment and demarcation, afforestation & restoration of mangroves, alternate and supplementary livelihoods, weed pollution & control, protection measures and education and awareness etc. Research reveals that the best proven practice with regard to conservation and management of mangroves is through community-based comanagement which can open new avenues for self-employment such as ecotourism, fishing and beekeeping. The National Environment Policy, 2006 also recognizes Mangroves and Coral Reefs as the important coastal environmental resources. There are 38 mangrove sites identified by the Ministry for intensive conservation and management. These sites are in West Bengal (Sundarbans); Odisha (Bhitarkanika, Mahanadi, Subernarekha, Devi, Dhamra, Mangrove Genetic Resources Centre, Chilka); Andhra Pradesh (Coringa, East Godavari, Krishna); Tamil Nadu (Pichavaram, Muthupet, Ramna, Pulicat, Kazhuveli); Andaman & Nicobar(North Andamans, Nicobar); Kerala (Vembanad, Kannur); Karnataka (Coondapur, Dakshin Kannada/Honnavar, Karwar, Manglore Forest Division), Goa; Maharashtra (Achra-Ratnagiri, Devgarh-Vijay Durg, Veldur, Kundalika-Revdanda, Mumbra-Diva, Vikroli, Shreevardhan, Vaitarna, Vasai-Manori, Malvan); Gujarat (Gulf of Kuchchh, Gulf of Khambhat, Dumas-Ubhrat). To protect the genetic diversity of mangroves, National Mangrove Genetic Resource Center has been established in Bhitarkanika in Odisha where the maximum number of mangrove species of the country is present in a single area.

Fact:

One hectare of mangrove can store 3754 tons of carbon; it's the equivalent of taking more than 2650 cars off the road for one year.

Source: UNESCO data

Further Ministry of Environment, Forest and Climate Change enacts the Environment (Protection) Act, 1986, Coastal Regulation Zone (CRZ) Notification, 1991 and National Biodiversity Act, 2002 for conservation of coastal and marine environment. Marine Ecosystems have been declared as ecologically sensitive areas under the Environment (Protection) Act, 1986. As per the CRZ notification, mangroves & coral reefs fall under the category I which qualifies for strict protection, prohibiting development activities and disposal of wastes.

International agreements/conventions relating to conservation of mangroves:

S.No.	Name
1.	Convention on Biological Diversity
2.	Ramsar Convention on Wetlands
3.	UNESCO Man and Biosphere Programme
4.	Convention on Migratory Species
5.	Convention on the International Trade of Endangered Species
6.	United Nations Framework Convention on Climate Change and the
	Kyoto Protocol

In addition, Ministry has also designated special Marine and Coastal Protected Areas to protect marine ecosystems, especially mangroves. Marine protected area is essentially a space in the ocean where human activities are more strictly regulated than the surrounding waters. It is similar to parks we have on land. These places are given special protections for natural or historic marine resources by local, state, territorial, native, regional, or national authorities.

(Kanchan Puri and Dr. Ritesh Joshi, Environment Education Division, Ministry of Environment, Forest and Climate Change, Government of India. email: genetics_1407@yahoo.co.in)

News Digest

NATIONAL

All registered medical practitioners have been allowed to recommend testing for COVID-19. As per the 'Test, Trace, Treat' strategy, the Government of India is driving enhanced testing initiatives in States and Union Territories, according to the Health Ministry.

Meanwhile, Zydus Cadilla has started human trials of its potential Covid-19 vaccine ZyCoV-D. The plasmid DNA vaccine ZyCoV-D, designed and developed by Zydus and partially funded by the Department of Biotechnology is the second potential vaccine candidate after Bharat Biotech's COVAXIN which got the approval for human clinical trial by the Central Drug Standard Control Organisation. Biotechnology Industry Research Assistance Council has announced that ZyCoV-D has initiated phase-I and II clinical trials on healthy subjects. ZyCoV-D is developed indigenously at the company's Vaccine Technology Centre in Ahmedabad after completing the preclinical phase.

As per World Intellectual Property Indicators-2019 Report, India has emerged as the top tenth nation in the ranking of the total (resident and abroad) Intellectual Property (IP) filing activity. With government push to schemes like 'Make in India', 'Skill India' and now 'Atma-nirbhar Bharat', IP Filing and grant activity is likely to increase. Industry 4.0 is witnessing new inventions and breakthroughs as it faces challenges in providing the right environment to stimulate innovation, especially in Artificial Intelligence and Machine Learning. IP-intensive industries have been identified as an important and integral part of a country's economy and account for more jobs and a larger share of its GDP. Director General of Pushpa Gujral Science City, Dr. Neelima Jerath said, this in a webinar on intellectual property Rights on July 16. Government of India has taken concrete steps to establish favourable environment for creation and protection of Intellectual Property Rights and strengthening IP administration in the country. The National IPR Policy, launched in May 2016, to promote strong IP regime in the country encourages innovation to achieve country's industrial and economic development goals.

ECONOMY

- Ministry of Finance has released an amount of over 15 thousand and 187 crore rupees as grants-in-aid to 2.63 lakh Rural Local Bodies (RLBs) spread in 28 States. The amount was released upon the recommendation of the Ministry of Panchayati Raj, Department of Drinking Water and Sanitation and Jal Shakti Ministry. This grants-in-aid forms part of the Tied Grant as recommended by the 15th Finance Commission for the Financial Year 2020-21. It will be used by RLBs to facilitate taking up of various developmental work concerning supply of drinking water, rain water harvesting, water recycling, sanitation and maintenance of Open Defecation Free status which are national priorities.
- The Union Health Ministry has said that the government aims at gradually increasing the public health expenditure to 2.5 per cent of the nation's GDP by the year 2025. In a meeting with the 15th Finance Commission, the Union Health Minister Dr. Harsh Vardhan

asserted that the outlay for primary health expenditure will also be made nearly two third of the total public health expenditure in the country. Reiterating the government's target of the National Health Policy 2017, Dr. Vardhan emphasized on the importance of increasing the state's health sector spending to nearly 8 per cent of their total budget. The Health Ministry has also revised its requirement of around 4.9 lakh crores to 6.04 lakh crores in view of the COVID pandemic. It has asked for additional resources for the States which would be utilized for achievement of the National Health Policy targets.

INTERNATIONAL

"India-EU Strategic Partnership: A Roadmap to 2025" was adopted during the India-EU summit held on 15 July. The roadmap aims to guide cooperation between the two sides over the next five years. While India was represented by Prime Minister Narendra Modi, the EU was represented by Charles Michel, President of the European Council, and Ursula von der Leyen, President of the European Commission. The leaders agreed to further develop their trade and investment relations to unleash their full potential particularly in the context of post-COVID-19 economic recovery and support sustainable growth and jobs on both sides

■ The Ministry of External Affairs (MEA) has said the Consular Officers were not given unimpeded, unhindered and unconditional access to Kulbhushan Jadhav by Pakistan. MEA issued a statement on 16 July claiming that Pakistani officials with an intimidating demeanour were present in close proximity of Mr Jadhav despite the protests of the

Indian side. It was also evident from a camera that was visible that the conversation was being recorded. The MEA Spokesperson said, Mr Jadhav himself was visibly under stress and he indicated that clearly to the Consular Officers. The arrangements did not permit a free conversation between them and the Consular Officers could not engage Mr Jadhav on his legal rights and were prevented from obtaining his written consent for arranging his legal representation.

■ The MEA has said that despite the difficulties posed by the sanctions situation, there has been significant progress on the Chabahar Port project in Iran. Ministry spokesperson Anurag Srivastava said Indian company has been operating the Port since 2018 and has steadily scaled up the traffic at the Port. Since December 2018, eighty two vessels have been handled there including 52 in the last twelve months alone. The Port handled 12 lakh tonnes of bulk cargo and 8200 containers. Proactive measures are currently underway to increase the usage of Chabahar Port, both for Afghanistan and Central Asia. The spokesperson said, there have also been some reports regarding the Farzad-B Gas field negotiations in which ONGC was involved in the discovery stage. Follow-up bilateral cooperation was however impacted by policy changes on the Iranian side. He said in January this year, India was informed that in the immediate future, Iran would develop the field on its own and would like to involve India appropriately at a later stage and that this matter remains under discussion.

SPORTS/ MISCELLANEOUS

Home Ministry has requested all states to take requisite action for providing incentives to National Cadet Corps (NCC) certificate holders in the direct recruitment examination of the State Police Forces. In a letter to all states, Home Ministry said this will encourage more youth to join NCC and bring more disciplined,

physically fit and well trained personnel to the State Police Forces. Home Ministry has already decided to grant incentives to NCC Certificate holders in direct recruitment posts of Sub Inspectors and Constables in the Central Armed Police Forces considering efficacy of professional training and skills received by NCC cadets.

■ The fourth cycle of the All India Tiger Estimation 2018 has entered the Guinness World Record for being the world's largest camera trap wildlife survey. Camera traps were placed in 26,838 locations across 141 different sites and surveyed an effective area of 1 lakh 21 thousand 337 square kilometres. From the photo-

graphs, 2,461 individual tigers were identified using stripe-pattern-recognition software. India now has an estimated 2967 tigers as per the latest census. With this number, India is home to nearly 75 percent of the global tiger population and has already fulfilled its resolve of doubling tiger numbers, made at St. Petersburg in 2010, well ahead of the target year of 2022. The citation at the Guinness World Record website says the fourth iteration of the survey - conducted in 2018-19 - was the most comprehensive to date, in terms of both resource and data amassed.
