SWACHH BHARAT : PROVISIONING CLEAN WATER FOR ALL

"Success of democracy is impossible without participation of the people"

— Prime Minister Shri Narendra Modi

India is the largest democracy in the world and citizens here are highly enthusiastic to be a part of Governance. In a democratic system, citizen participation is one of the key components of decision making process.

Prime Minister Shri Narendra Modi launched the Swachh Bharat Mission on 2 October 2014 to achieve the vision of a 'Clean India' and to accelerate the efforts towards achievement of universal sanitation coverage.

While leading the mass movement for cleanliness, the Prime Minister exhorted people to fulfil Mahatma Gandhi's dream of a clean and hygienic India. By inviting people to participate in the drive, the Swachh Bharat Mission has turned into a National Movement. A sense of responsibility has been evoked among the

people through the Clean India Movement. With citizens now becoming active participants in cleanliness activities across the nation, the dream of a 'Clean India' once seen by Mahatma Gandhi has begun to get a shape.

The Prime Minister has helped spread

the message of Swachh Bharat by urging people through his words & action. He carried out a cleanliness drive in Varanasi as well. He wielded a spade near River Ganga at Assi Ghat in Varanasi under the Clean India Mission. He was joined by a large group of local people who

cooperated in the Swachh Bharat Mission. Understanding the significance of sanitation, Prime Minister, Shri Narendra Modi has simultaneously addressed the health problems that Indian families have to deal with due to lack of proper toilets in their homes.

The mission was implemented as nation-wide campaign/ Jan andolan aimed at eliminating open defecation in rural areas through mass scale behavior change, construction of household-owned and community-owned toilets and establishing mechanisms for monitoring toilet construction and usage.

People from different sections of the society have come forward and joined this mass movement of cleanliness. From government officials to jawans, Bollywood actors to sportspersons, industrialists to spiritual leaders, all have lined up for the noble work. Millions of people across the

CAREER OPPORTUNITIES IN RISK ANALYSIS AND MANAGEMENT

Vijay Prakash Srivastava

One of the sayings we hear now and then is 'no risk, no gain'. It simply means that in order to achieve something, you need to make certain sacrifices. Even in general terms we keep talking about risks in our personal and social life. For a layman risk may be a generic term but it has many implications and connotations. Let us try to understand the meaning of risk, risk analysis and risk management through a simple example. You need to go out for some work and find that there are dark clouds in the sky suggesting possibility of rain. Now if you go in the open and it rains, you may get wet (with the chances of falling sick). So venturing out in the rain is taking a risk. You just try to explain yourself whether it may or not rain to decide your future course

of action. This act of understanding the possibilities and fallout of a risk is called risk analysis. Now you decide that your going out is important even if it rains and carry an umbrella or a raincoat to protect yourself from rain. This act of planning to face the eventualities of a risk is known as risk management.

In a wider perspective and

when the stakes are high, understanding risks, analyzing and managing them becomes a serious matter. We need risk management skills in our life, but here we're going to talk about risks in a business and enterprise perspective which may lead to understand what a career in risk management means and how those, who find it interesting, can

find their way to it. Before that, two quick things - the path to a career in risk management, in most of the cases is not straight. It is not like that you study software engineering and are considered eligible to become a software engineer and that risk management is a career which can be thought of people who have already some experience in domains linked with risk management and now wish to switch to work in analyzing and managing risk. For example, a person working in the information technology may take up a role which requires dealing with risks in information technology.

Understanding the nature of risks

A risk is defined in a number of perspectives. Here we're concern-

ned with risks in business and organizations. A business is exposed to so many risks. In simple terms risk is the possibility that an outcome will not be as expected, specifically in reference to returns on investment in business. We can predict the future but can never be sure about it because if we're sure we can fully provide for it completely neutralizing the effect or result of that particular risk. A risk is a risk because we're not sure about something. So risk can never be completely avoided, we can simply take some steps to mitigate it or reduce its adverse effects. There are different kinds of risks, the major ones are described below.

Financial Risk: Financial risk is the probability that actual financial results will be different from expected results and can be defined as the volatility of returns. The concept of "risk and return" applied in businesses means that riskier assets should have higher expected returns to compensate investors for the higher volatility and increased risk. Financial risk is an inherent part of the investment and is applicable to the businesses, government, individual and financial markets. It basically represents the chance that the parties involved may lose money. For a government, it could mean a failure of monetary policy and default on bonds or other debt. For companies, it

could mean being unable to pay a debt or losing value on investments. Mostly financial risk are categorised into systematic or non-systematic. Systematic risk is due to external factors and affects the entire economy, for example economy going into recession. Non-systematic risks affect specific sectors or companies.

Operational Risk: The type of risk that arises out of operational failures such as mismanagement or technical failures is known as operational risk. A large number of risks in business and industry occur due to system failures or mistakes committed by people. Example when a power plant stops working and there is no electricity supply to the factory resulting in stoppage of production. Frauds happening in an entity are also classified into operational risks. People risk is also considered its part which happens in case of wrong hires or when people in certain roles are not competent to fulfil the assigned responsibilities. Depending on the nature of operational risks, these may be relatively easier to manage.

Market Risk: In broader perspective market risk is a term that encompasses the risk that investments or equities will decline in value due to major economic or market changes or events. Under the coverage of market risk are several kinds of specific risks, including equity risk, interest rate risk and

currency risk. Equity risk is the risk that an equity's share price will drop, causing a loss. In a similar vein, interest rate risk is the risk that the interest rate on bonds and other financial instruments will change and change the value of investment. Similarly currency risk, also called exchange-rate risk, applies to foreign investments and the risk associated with exchange rates for currencies when the value of a certain currency like rupee goes up or down in comparison to the U.S. dollar or in some other currency.

Reputational Risk: Reputation risk is the potential for any event, controllable or uncontrollable, to damage an organisation's reputation. It is the risk to the institution from stakeholder perceptions of the profitability, brand value, authenticity, or ability to perform expected corporate function. Reputation risk is also the threat to the sustainability of a business or other entity that is caused by unfavourable public perception of the organization or its products or services. Few years ago reputation of a large multinational company operating in India suffered a big loss as reportedly some banned ingredients were found in one of its main products. Similar is the case when the whole lot of cars produced by an automobile manufacturer were found defective.

Further examples of risks are compliance risk, regulatory risk among others.

We shouldn't forget that by and large all the above risks, in some way or the other, are linked to other and may have cause

and effect relationship.

Courses

There are few courses which may directly or indirectly help you to take up a risk manager's role. If you choose to do a Chartered Accountancy course, after getting some experience, may look forward to work in the area of risk analysis or risk management. This applies to Chartered Financial Analyst course as well.

The other route is to take up a two years full time programme of Masters of Business Administration (MBA) or Postgraduate Diploma in Management (PGDM) with specialization in finance. Courses such as Masters in Financial Management in will also do.

National Institute of Securities Market conducts courses like Post Graduate Certificate in Management (Data Science in Financial Markets) and Post Graduate Diploma in Management (Securities Markets) which also have inputs of risk management. NISM Certified Course in Securities Market is conducted jointly with and at some management institutes. NISM's other joint programmes like Certificate in Derivatives Market Strategies, Certification in Equity Trading and Investment and Advanced Certification in Financial Markets may also be of help in few cases.

Actuarial Science may form the basis of a risk management career in an insurance company. One has also the option to take up courses purely focused on risk management. These include-

Financial Risk Manager: This is a certification provided by

United States based Global Association of Risk Professional. There are two parts to the examination.

Operational Risk Modeling

Programme: There may be a number of such programmes at different institutions. An Indian company Edupristine also offers this course.

Certified Credit Research

Analyst: Association of International Wealth Management of India (AIWMI) provides this certification and as the name suggests, is particularly focused on credit domain. You may take the course in regular, self-study or exam mode as per details given over the website of AIWMI.

Professional Risk Manager:

Professional Risk Managers' Global Association is the regulating body for a number of courses which comes as a series of certification viz Associate Professional Risk Manager, Credit and Counterparty Risk Manager (CCRM), Market Liability and Asset Risk Manager (MLARM), Operational Risk Management (ORM) certification. To maintain and continue with the certification, certain requirements may need to be fulfilled.

Certified Information System Auditor (CISA) and Certified in Risk and Information Systems Control (CRISK) are global certifications provided by ISACA useful to strengthen a career in information technology risk management.

The above certifications are also useful to those who are already working in risk management and are keen to advance their career.

There are a number of universities/ management colleges in the country which have courses like MBA/PGDM in Banking/Insurance and Risk Management. Some of the

EN 36/64

COVID-19 VACCINE : FREQUENTLY ASKED QUESTIONS**Target Group : General Public**

S. No.	Question	Potential response
1.	Is a COVID vaccine scheduled anytime soon?	Yes, vaccine trials are under different stages of finalization. Government of India is geared to launch a vaccine for COVID-19 soon. For more information and updates visit www.mohfw.gov.in
2.	Will COVID 19 vaccine be given to everyone simultaneously?	Based on the potential availability of vaccines the Government of India has selected the priority groups who will be vaccinated on priority as they are at higher risk. The first group includes healthcare and frontline workers. The second group to receive COVID-19 vaccine will be persons over 50 years of age and persons under 50 years with comorbid conditions.
3.	Is it mandatory to take the vaccine?	Vaccination for COVID-19 is voluntary. However, it is advisable to receive the complete schedule of COVID-19 vaccine for protecting one-self against this disease and also to limit the spread of this disease to the close contacts including family members, friends, relatives and co-workers
4.	Will the vaccine be safe as it is being tested and introduced in a short span of time?	Vaccines will be introduced in the country only after the regulatory bodies clear it based on its safety and efficacy.
5.	Can a person presently having COVID-19 (confirmed or suspected) infection be vaccinated?	Person with confirmed or suspected COVID-19 infection may increase the risk of spreading the same to others at vaccination site. For this reason, infected individuals should defer vaccination for 14 days after symptoms' resolution.
6.	Is it necessary for a COVID recovered person to take the vaccine?	Yes, it is advisable to receive complete schedule of COVID vaccine irrespective of past history of infection with COVID-19. This will help in developing a strong immune response against the disease.
7.	Out of the multiple vaccines available, how is one or more vaccine chosen for administration?	The safety and efficacy data from clinical trials of vaccine candidates are examined by Drug regulator of our country before granting the license for the same. Hence, all the COVID-19 vaccines that receive license will have comparable safety and efficacy. However, it must be ensured that the entire schedule of vaccination is completed by only one type of vaccine as different COVID-19 vaccines are not interchangeable.
8.	Does India have the capacity to store the COVID vaccine at temperature of +2 to +8 degree Celsius and transport them at required temperature?	India runs one of the largest immunization programme in the world, catering to the vaccination needs of more than 26 million newborns and 29 million pregnant women. The programme mechanisms are being strengthened / geared up to effectively cater to the country's large and diverse population.
9.	Will the vaccine introduced in India be as effective as the ones introduced in other countries?	Yes. The COVID-19 vaccine introduced in India will be as effective as any vaccine developed by other countries. Various phases of vaccine trials are undertaken to ensure its safety and efficacy.
10.	How will I know if I am eligible for vaccination?	In the initial phase, COVID-19 vaccine will be provided to the priority group- Health Care and Front-line workers. The 50 plus age group may also begin early based on vaccine availability. The eligible beneficiaries will be informed through their registered mobile number regarding the Health Facility where the vaccination will be provided and the scheduled time for the same. This will be done to avoid any inconvenience in registration and vaccination of beneficiaries.
11.	Can a person get the COVID-19 vaccine without registration with Health Department?	No, registration of beneficiary is mandatory for vaccination for COVID-19. Only after registration the information on the session site to visit and time will be shared with the beneficiary.

S. No.	Question	Potential response
12.	What documents are required for registration of eligible beneficiary?	Any of the below mentioned ID with Photo may be produced at the time of registration: • Aadhar Card • Driving License • Health Insurance Smart Card issued under the scheme of Ministry of Labour • Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) Job Card • Official Identity cards issued to MPs/MLAs/MLCs • PAN Card • Passbooks issued by Bank/Post Office • Passport • Pension Document • Service Identity Card with photograph issued to employees by Central/ State Govt./ PSUs/Public Limited Companies • Voter ID • Smart card issued by RGI under NPR
13.	Will a Photo / ID be required at the time of registration?	The Photo ID produced at the time of registration must be produced and verified at the time of vaccination.
14.	If a person is not able to produce Photo ID at the session site, whether s/he be vaccinated or not?	Photo ID is a must for both registration and verification of beneficiary at session site to ensure that the intended person is vaccinated.
15.	How will the beneficiary receive information about due date of vaccination?	Following online registration, beneficiary will receive SMS on their registered mobile number on the due date, place and time of vaccination.
16.	Will vaccinated beneficiaries receive information on the status of their vaccination after completion?	Yes. On getting due dose of COVID-19 vaccine, the beneficiary will receive SMS on their registered mobile number. After all doses of vaccine are administered, a QR code based certificate will also be sent to the registered mobile number of the beneficiary.
17.	If one is taking medicines for illnesses like Cancer, Diabetes, Hypertension etc, can s/he take the COVID-19 vaccine?	Yes. Persons with one or more of these comorbid conditions are considered high risk category. They need to get COVID-19 vaccination.
18.	Are there any preventive measures and precautions that one needs to follow at the session site?	We request you to rest at the vaccination centre for atleast half an hour after taking the COVID-19 vaccine. Inform the nearest health authorities/ANM/ASHA in case you feel any discomfort or uneasiness subsequently. Remember to continue following key COVID Appropriate Behaviours like wearing of mask, maintaining hand sanitization and physical distance (or 6 feet or Do Gaaj).
19.	What about the possible side-effects from COVID-19 vaccine?	COVID Vaccine will be introduced only when the safety is proven. As is true for other vaccines, the common side effects in some individuals could be mild fever, pain, etc. at the site of injection. States have been asked to start making arrangements to deal with any COVID-19 vaccine-related side-effects as one of the measures towards safe vaccine delivery among masses.
20.	How many doses of the vaccine would have to be taken by me and at what interval?	Two doses of vaccine, 28 days apart, need to be taken by an individual to complete the vaccination schedule.
21.	When would antibodies develop? After taking first dose, after taking second dose, or much later?	Protective levels of antibodies are generally developed two weeks after receiving the 2nd dose of COVID-19 vaccine.

CAREER OPPORTUNITIES IN RISK ANALYSIS ...

students belonging to prestigious institutes may be taken in campus placement for risk management or related roles.

Indian Institute of Risk Management, Hyderabad jointly promoted by Insurance Regulatory Development Authority of India (IRDAI) and Government of Telangana offers Postgraduate Diploma in Management and Postgraduate Certificate in Management with specialization in risk management.

Mumbai University's Alkesh Dinesh Mody Institute for Financial and Management Institute has M.Sc. course

Banaras Hindu University has Master of Financial Management (Risk and Insurance)

National Law University, Jodhpur has MBA (Insurance Risk Management), open to

engineering graduates only.

The above is just an indicative list.

Who employs risk management professionals

Insurance Companies: Insurance is a business to leverage risk. People take insurance to get protected against different kinds of losses such as death, accident, theft / burglary and health issues. There are insurance companies both in public and private sector categorized into life, general and health insurance companies.

Banks: All big banks have a risk management department which may be subdivided into smaller sections to look after different risks. While considering a career in banking you may explore opportunities in public and private sector banks, foreign banks, payment banks, small

finance banks and investment bankers.

Mutual Fund /Asset Management Companies: Mutual Funds and asset management companies have to deal with risks in their everyday business and for this they require the services of risk management professionals.

FINTECH Companies: Such companies are those who handle finance on a digital platform. Number of FINTECH Companies is on increase with advancement in technology. Few of these companies are Startups. Finance professionals with knowledge of IT applications and risk management are suited to work in such companies.

Non-banking Financial Companies (NBFCs): Such companies while investing and providing finance, need to make risk assessments and thus require people equipped with such capabilities.

Rating Agencies: Financial ratings are an indication of credit worthiness of a borrower or quality of a financial instrument. Such ratings are provided by rating agencies considering a number of parameters. CRISIL, ICRA, CARE SMERA are the biggest rating agencies in India. Among global ones you may count S & P Global, Moody's and a few more.

Foreign Institutional Investors: As India's stock markets are touching new highs, foreign Institutional Investors (FIIs) are showing renewed interest towards investing in our country. They have to assess risk and reward situation through help of risk analysts and managers.

Brokerage Houses: Stock broking houses appoint risk analysts to decide which stock to sell or buy and make such recommendations to their

clients. The idea is to maximize profits and minimize losses. They need to make risk analysis with the help of such professionals.

Consulting Companies: Risk Management consulting is a big business and many domestic and global companies offer such services. These need specialists in different streams of risks.

Skills required

For a good career in risk management one should be familiar with excel and be able to adopt to other software programs used. Analytical skills, critical thinking, being able to look to the bigger picture are other requirements which can always be learnt and developed.

SWACHH BHARAT : PROVISIONING CLEAN WATER FOR ALL

country have been day after day joining the cleanliness initiatives of the government departments, NGOs and local community centres to make India clean. Organising frequent cleanliness campaigns to spreading awareness about hygiene through plays and music is also being widely carried out across the nation.

Swachh Survekshan is an annual survey of cleanliness, hygiene and sanitation in cities and towns across India, launched as part of the Swachh Bharat Abhiyan. The first survey was undertaken in 2016 and covered 73 cities; by 2020 the survey had grown to cover 4242 cities and was said to be the largest cleanliness survey in the world. In a bid to scale up the coverage of the ranking exercise

backbone of a healthy economy, yet is woefully under prioritized, globally. As per a UNICEF Report, waterborne diseases cause major economic burden annually in India. This is especially true for drought- and flood-prone areas, which affected a third of the nation in the past couple of years.

Prime Minister Narendra Modi announced **Jal Jeevan Mission** on 15 August, 2019 with an aim to provide Functional Household Tap Connection (FHTC) to every rural household by 2024. Jal Jeevan Mission is under implementation since August, 2019 in partnership with the State Governments with an aim to provide potable water in adequate quantity and of prescribed quality on regular and long-term basis.

The untiring efforts of States/

impacting the lives in multiple ways by improving the health parameters and reducing dropout from school among children.

In this spirit, a '100-Day Campaign' was launched on 2 October, 2020 to provide piped water supply to every school, Angan Wadi Centre (AWC) and Ashramshala, i.e. residential schools for children from tribal communities. So far, in 3 months, more than 4.4 lakh rural schools and about 3.73 lakh AWCs have started getting potable tap water. Punjab and Tamil Nadu have become the first States to provide every school with tap water supply. Also, every AWC in Tamil Nadu is provided with tap water.

All water resources are integral to the ethos of the Swachhita campaign. Some other campaigns by the Jal Shakti Ministry include the River Rejuvenation project.

'Namami Gange Programme', is an integrated Conservation Mission, approved as 'Flagship Programme' by the Union Government in June 2014 with budget outlay of Rs.20,000 crore to accomplish the twin objectives of effective abatement of pollution, conservation and rejuvenation of National River Ganga. In the budget for the financial year 2020-21, Government of India has proposed an allocation of Rs.1,600.02 crore for the Namami Gange Programme. In July 2020, the World Bank and the Government of India signed a loan agreement to enhance support for the Namami Gange programme that seeks to rejuvenate the Ganga River. The Second National Ganga River Basin Project will help stem pollution in the iconic river and strengthen the management of the river basin which is home to more than 500 million people.

The main pillars of the Namami Gange Programme are: Sewerage Treatment Infrastructure, River-Front Development, River-Surface Cleaning, Bio-Diversity, Afforestation, Public Awareness, Industrial Effluent Monitoring, Ganga Gram. Its implementation has been divided into Entry-Level Activities (for immediate visible impact), Medium-Term Activities (to be implemented within 5 years of time frame) and Long-Term Activities (to be implemented within 10 years).

The key activities under Namami Gange programme are:

**1. Creating Sewerage**

Treatment Capacity: 63 sewerage management projects under implementation in the States of Uttarakhand, Uttar Pradesh, Bihar, Jharkhand and West Bengal. 12 new sewerage management projects launched in these states. Work is under construction for creating Sewerage capacity of 1187.33 Million Litres per Day.

2. Creating River-Front

Development: 28 River-Front Development projects and 33 entry level projects for construction, modernization and renovation of 182 Ghats and 118 crematoria has been initiated.

3. River Surface Cleaning:

Collection of floating solid waste from the surface of the Ghats and River and its disposal are afoot and pushed into service at 11 locations.

4. Bio-Diversity Conservation:

Several Bio-Diversity conservation projects are named: Biodiversity Conservation and Ganga Rejuvenation, Fish and Fishery Conservation in Ganga River, Ganges River Dolphin Conservation Education Programme has been initiated. Five Bio-Diversity centers at Dehradun, Nainital, Allahabad, Varanasi and Barrackpore have been developed for restoration of identified priority species.

5. Afforestation:

Forestry interventions for Ganga through Wildliffe Institute of India; Central Inland Fisheries Research Institute and Centre for Environment Education has been initiated.

6. Public Awareness:

Various awareness activities through rallies, campaigns, exhibitions, shramdaan, cleanliness drives, competitions, plantation drives and development and distribution of resource materials were organized and for wider publicity the mass mediums were used. Gange Theme song was released widely and played on digital media to enhance the visibility of the programme.

7. Industrial Effluent

Monitoring: The number of Grossly Polluting Industries

(GPIs) in April, 2019 are 1072. Regulation and enforcement through regular and surprise inspections of GPIs is carried out for compliance verification against stipulated environmental norms.

8. Ganga Gram: Ministry of Drinking Water and Sanitation (MoDWS) identified 1674 Gram Panchayats situated on the bank of River Ganga in 5 States, namely Uttarakhand, Uttar Pradesh, Bihar, Jharkhand and West Bengal. Rs. 578 crores has been released to Ministry of Drinking Water and Sanitation (MoDWS) for construction of toilets in 1674 Gram Panchayats of 5 Ganga Basin States.

Former Prime Minister of the United Kingdom, Benjamin Disraeli has beautifully worded citizen responsibilities in a democracy, 'Cleanliness and order are not matters of instinct; they are matters of education, and like most great things, you must cultivate a taste for them.'

and encourage towns and cities to actively implement mission initiatives in a timely and innovative manner, Ministry of Housing and Urban Affairs (MoHUA) is now in the process of conducting the sixth edition of the survey to rank all cities under Swachh Bharat Mission-Urban (SBM-U) with Quality Council of India (QCI) as its implementation partner.

As the Union Government has been working towards making lives better for women across various sections by constructing individual household and community toilets, providing cooking gas, etc. similarly, tap water connections within the household aims to reduce drudgery and enhance 'ease of living' for young girls and women who are often burdened with the task of fetching water from the public standpost and walking long distances in search of water. Consumption of contaminated water has adverse impact on our health, especially children. As on 15 August 2019, out of 18.93 Crore rural households, 3.23 Crore (17%) had tap water connections.

A safe water supply is the

UTS have helped Jal Jeevan Mission provide above 3 Crore tap water connections since August, 2019. Further, 26 districts, 457 Blocks, 34,919 Panchayats and 66,627 villages have become 'Har Ghar Jal' meaning every family living in these rural areas is getting assured tap water supply in their homes and 'no one is left behind'. Goa has become the first State in the country to provide 100% FHTCs and became 'Har Ghar Jal' State. Different States are competing with each other and focusing on the set target to ensure that every household in the country gets safe drinking water adhering to the core principle of 'equity & inclusiveness'.

States are giving priority to water quality-affected areas, Scheduled Caste/ Scheduled Tribe majority villages, aspirational districts, village in drought prone and desert areas and quality-affected habitations. The mission is working to ensure that piped water supply reaches the regions affected by Fluoride and Arsenic at the earliest as well. By providing water at the doorstep, Jal Jeevan Mission is

PM Modi dedicates to the nation new section of Western Dedicated Freight Corridor

Prime Minister Narendra Modi on 7th January, dedicated to the nation the 306-Kilometre long New Rewari-New Madar Section of the Western Dedicated Freight Corridor. He also flagged off the world's first Double Stack Long Haul 1.5-Kilometre long Container Train hauled by electric traction from New Ateli -New Kishangram through video conference. Speaking on the occasion, Mr. Modi said that opening of this stretch will fuel the industries in Rewari, Mahendergarh, Ajmer and Sikar. Mr Modi said that it has opened the path for manufacturing units to reach the national and international markets at low cost and will also boost investment. The corridor covers 135 stations, which will be developed as multimodal logistic hubs. He said that it will also help to boost the village and small scale industries to uplift the economy. The Double Stack Long Haul Container Train Operation which adds an enhanced axle load of 25 tonnes will maximize capacity utilization. These wagons on a long-haul double stack container train on the western freight corridor can carry four times in terms of container units compared to the current traffic on Indian Railways at a higher speed of 100 km/per hour.

Vaccination for COVID-19 is advised but voluntary

The Government has said that the vaccination for Covid-19 is voluntary. The Health Ministry has come out with a series of frequently asked questions about COVID-19 vaccine on various aspects. The Ministry said it is advisable to receive the complete schedule of COVID-19 vaccine for protecting oneself and limiting the spread of the disease. Infected individuals should defer vaccination for 14 days after symptoms resolution as they may increase the risk of spreading the virus to others at the vaccination site. The Ministry said, the vaccine introduced in India will be as effective as any vaccine developed by other countries as various phases of vaccine trials are undertaken to ensure its safety and efficacy. Eligible beneficiaries will be informed through their registered mobile numbers regarding the Health Facility for vaccination and its scheduled time.

Medical experts welcome government approval for two Corona vaccines

Medical experts have welcomed the government's decision to approve two Corona virus vaccines, namely Covishield and Covaxin for emergency use in the country. All India Institute of Medical Sciences (AIIMS) Director Dr Randeep Singh Guleria has lauded the work done by Indian laboratories in making indigenous vaccines. He said, the research has been done in the country to make a truly Indian vaccine. Dr Guleria said, these vaccines are cost-effective and easy to administer, as they can be stored at temperatures between 2 to 8 degrees Celsius.

GST collections touch all time high of over Rs. one lakh crore

GST revenue collection for last month has been recorded to be an all time high since the implementation of the Goods and Services Tax in the country. The gross GST revenue collected in the month of December 2020 is Rs. 1,15,174 crores. The revenue collected is 12 per cent higher than the GST revenue in the corresponding period lasting last financial year. The revenue figures for December 2020 are significantly higher than the November's revenues which was nearly Rs. 1,04,963 crore. The Finance Ministry has informed that this is the highest growth in monthly revenues in the last 21 months. It said, this has been due to the combined effect of the rapid economic recovery post pandemic and the nation-wide drive against GST evaders and fake bills along with many systemic changes introduced recently.
