## SAVING LIVES THROUGH LARGE SCALE IMMUNIZATION CAMPAIGNS

Urvashi Prasad

Vaccination is a fundamental public health intervention for preventing severe disease manifestations and saving lives. India has implemented several immunisation programs over the years. Till as recently as 2009, India accounted for over 60% of the world's polio cases. Due to a massive vaccination campaign targeting millions of children, India was officially declared polio free in 2014. Another prominent example is the Universal Immunization Programme (UIP) which seeks to protect around 30 million pregnant women and 26 million children annually against 12 diseases. These initiatives have played a key role in reducing India's Maternal Mortality Rate from 130 per 100,000 in 2014 to around 113 per 100,000 now. The Under 5 Child Mortality Rate in the country has also reduced to 36, which is less than the world average of 39.

In 2014, the Government launched Mission Indradhanush (MI) to significantly enhance immunisation coverage in the country by reaching out to the most vulnerable and inaccessible communities.

Special Feature on National Immunization Day March 16

MI was launched as a focused strategy for covering every pregnant woman and child who might have been left out of the UIP, despite best efforts. Mission Indradhanush and Intensified Mission Indradhanush have helped to further accelerate progress and achieve 90% full immunisation

coverage in target districts. Since its launch, at least 9.5 million pregnant women and 38 million children have been vaccinated across 690 districts in India as part of MI. The impact of the programme is evidenced by the significant improvement in immunisation coverage across 22

States as per the first round of data from NFHS-5. The programme also has been recognised as a global best practice in public health by an independent jury. It was featured as one of 12 case studies in a special issue of the British Medical Journal.

On 22 February 2021, Intensified Mission Indradhanush 3.0 was launched across 250 pre-identified districts/urban areas in 29 states/UTs. The objective of this month-long phase of the Mission is to vaccinate children and pregnant women who missed out on their immunisation doses during the COVID-19 pandemic. There is a special focus on covering beneficiaries in hard-to-reach areas as well as those with a large migratory population. The Government has universalised vaccination against Rotavirus and Pneumococcal Pneumonia, both of which are responsible for hospitalisation and mortality in children under the age of 5 years. As announced in Union Budget 2021-22, universalisation of the Pneumococcal Conjugate Vaccine could save up to 50,000 lives annually.

## ECONOMIC EMPOWERMENT OF TRIBAL COMMUNITIES

The Aadi Mahotsav organised by the Tribal Cooperative Marketing Development Federation of India (TRIFED) was held recently in February 2021 at Dilli Haat in New Delhi. The fortnight-long National Tribal Festival saw the participation of thousands of tribal artisans, chefs, artists and cultural troupes from 25 states across the country. The rich tribal culture as evident in the form of rare tribal handicrafts, handloom and natural products, tribal cuisines were on display in about 200 stalls.

The Aadi Mahotsav succeeded in winning the hearts of the public as witnessed by the heavy footfall and the sales registered. The wares of the tribal artisans, be it the fine Pattachitra paintings, or the lovely silks from Assam, or the exquisite tribal jewellery from Odisha and the beaded necklaces from the North-east have, have been much liked. Add to it the earthy, exotic tribal cuisine, ranging from momos from Sikkim to mahua laddoos

from Chhattisgarh, from Dhuska and litti chokha from Jharkhand to thapdi roti of Odisha and chhapda chutney of Chhattisgarh.

**"It is necessary to make the tribal communities real stakeholders in the development process"**

- PM Narendra Modi

The feasts available to one's senses in the festival have been many.

As reported by TRIFED, perhaps making up from the losses registered due to the lockdown, the Aadi Mahotsav has

seen the tribal artisans register approximately Rs 4 crore in direct sales over the fortnight long event. Moreover, a purchase

order worth Rs 8 crores has been placed by TRIFED, leading to a total of approximately Rs 12 crores in business transactions for the tribals participating in this festival. The Aadi Mahotsav has truly been a celebration of the

spirit of tribal life - crafts, culture and cuisine.

**Employment News spoke to Mr. Pravir Krishna, Managing Director of TRIFED which organises this annual event in association with Ministry of Tribal Affairs. The interviewer is S. Ranga-bashyam, a New Delhi based News Anchor with All India Radio.**

EN - Aadi Mahotsav was held recently from 01-15 February, tell us about the basic objective of this festival.

Pravir Krishna - The TRIFED is a family of 5 lakh artisans who live in forests. They are very good producers but marketing is a problem. Aadi Mahotsav is a concept to give them access to large markets. The handlooms and forest products that are made into value added items, they need to be sold directly in the market by eliminating the middlemen. The concept of Aadi

**SAVING LIVES THROUGH LARGE SCALE IMMUNIZATION CAMPAIGNS**

Several lessons have been learnt through the implementation of these large-scale vaccination programs. A large part of the success of MI, for instance, is attributable to the fact that it received attention from the highest political office, with the Prime Minister communicating with all Chief Ministers to work towards achieving the goal of 80% immunisation in their States. A

large number of Government ministries beyond the Ministry of Health & Family Welfare were involved with the immunisation efforts, with clearly spelt out roles and responsibilities. These included the ministries of Women and Child Development, Panchayati Raj, Minority Affairs, Human Resource Development as well as Defence and Railways for transporting supplies and expanding the channels for

delivery of vaccines. A clear implementation process was developed, with an emphasis on training of staff at every level, constitution of district-level task forces, line listing of beneficiaries by frontline health workers, community mobilisation, real-time tracking of vaccination data and extensive use of technology to develop e-dashboards. To foster community partnership in the vaccination process, field

workers imparted health education by engaging a range of stakeholders including religious leaders, politicians, mothers' groups, ration dealers and chemists.

As India embarks on the journey of implementing the world's largest vaccination drive against COVID-19, the infrastructure and lessons learnt from previous successes like the polio campaign and MI have a crucial role to play. The Government has undertaken extensive preparatory activities to put in place the necessary institutional mechanisms at the level of States, Districts and Blocks for implementing and monitoring the COVID vaccination efforts. A sum of Rs. 35,000 crore has been allocated for the same in the Union Budget 2021-22, which could be increased if required as per the announcement made by the Finance Minister.

Overall guidance on research and development as well as other science and technology related issues with respect to the COVID-19 pandemic in India has been provided by the Vaccine Task Force, constituted by the Union Government on 14 April 2020, and co-chaired by the Principal Scientific Adviser to the Government of India and Member (Health), NITI Aayog. The National Expert Group on Vaccine Administration for COVID-19 (NEGVAC) was constituted in August, 2020 for providing guidance on prioritisation of population groups, procurement and inventory management, vaccine selection as well as vaccine delivery and tracking mechanisms. NEGVAC is co-chaired by Member (Health), NITI Aayog and the Union Health Secretary. The "Ind-CEPI" mission, and the COVID

Suraksha Mission (with a financial outlay of INR 900 crore), were launched to boost the development and testing of indigenous vaccine candidates.

'CoWIN', a digital platform for real-time tracking of the vaccine supply chain, beneficiary management, recording vaccination related data and issuing certificates to beneficiaries has been developed. Based on international practices and frame works formulated by agencies like the World Health Organisation, population groups have been prioritised for vaccination. The highest priority has been accorded to healthcare workers across Government and private facilities as well as frontline workers, including personnel from the Central and State Police Departments, armed forces, civil defence organizations, disaster management volunteers and municipal workers. These personnel are at the forefront of India's fight against COVID-19 and are therefore in the highest risk category given their frequent exposure to infected individuals. Next in the priority list are people above the age of 60 years and those between the ages of 45-59 years who are suffering from a specified comorbidity. The Government has released a list of 20 comorbidities, any one of which would make an individual eligible for receiving the COVID vaccine on priority. The list includes conditions like cancer, sickle cell disease, end stage kidney disease as well as diabetes with complications and hypertension.

With respect to the infrastructure for vaccination, the Government has taken steps to strengthen the cold chain, including walk in coolers, walk in

**ECONOMIC EMPOWERMENT OF TRIBAL COMMUNITIES**

Mahotsav is to invite these wonderful artisans from their forest dwellings and give them access to large markets, so that they can sell their products easily and at remunerative prices. We invite close to 1000 artisans, who sell their products for around Rs. 15 to 20 lakhs during the 15 day festival which is more than what they will earn for the whole year in the village markets. We call it Mahotsav as we are celebrating the tribal economy, tribal commerce and tribal way of life.

**EN - When was this festival started and how has the response been over the years?**

**PK -** Response has been tremendous. The Aadi Mahotsav was started in 2017 and it has grown from strength to strength. We have been showcasing the tribal craft, culture, commerce and cuisine. Its jam packed as in yesteryears, despite Covid. Its become actually difficult to even walk in Delhi Haat. We on our part have taken all precautions and in line with guidelines have provided sanitizers and masks to all artisans. The tribal economy has bounced back after being covid hit for the last 7-8 months.

**EN - The Govt is now focusing on Atmanirbhar Bharat and Vocal for Local. How can TRIFED contribute in that direction.**

**PK -** Our 5 lakh tribals are all local and we are trying to be vocal for them and promoting them. TRIFED is meant to be the mascot for them. These are all world class products which are consumed not only in the domestic market but are also exported after value addition. TRIFED is spearheading the campaign. I would ask the country to buy tribal products which are second to none.

**EN - Why is that the tribals do not get right price for their products**

**PK -** These artisans produce about 26000 types of handicraft, handloom and forest items which we have categorised. Since they dwell in forests they are good producers but poor marketing people. They don't market. They are in the clutches of middlemen

who buy at cheap rates from them and sell them for big profits. TRIFED gets them to large markets directly, so that they can sell at good prices. I will give the example of Tamarind, which is sold at Rs.35 per kg in the primary market. You deseed it and sell it for Rs.400 per kg. Value add it and tamarind sauces and chutneys sell for Rs. 1200. This is the magic of value addition, branding and retailing. This is where TRIFED comes into picture to help them get higher remunerative prices for their produce.

**EN - Tell us about this new initiative of "Van Dhan Startup".**

**PK -** It is a tribal start up. The wealth of forests has to go back to the forests. The Forests Rights Act makes tribals the owners of non-timber forests. Everything inside the forests belongs to the tribals. We are trying to set up 50,000 self help groups. What Amul did in Gujarat we want to do the same for the tribals of our country. Minimum Support Price (MSP) has been introduced for 75 such minor forest produce. We have introduced this Van Dhan scheme to value add, package and retail. We have injected Rs.1000 crores into the tribal ecosystem during the Covid pandemic. Through Van Dhan we are looking at a Rs.10,000 crore setup and trying for next level of Rs.50,000 crores all over the country.

**EN - You said tribals are the owners of non-timber forest. Could you elaborate on that. Are they really the owners of the forest.**

**PK -** The Parliament enacted the Indian Forest Rights Act in 2005 through which the non-timber forests belong to tribals who reside in them. So actually they own it. They are free to buy and sell the forest produce. Selling the raw material gives you a very low price. So instead of selling raw material, process it and then sell it and increase the income to three times. This is the concept of Van Dhan on which TRIFED is working. The tribal entrepreneurship program it is not just gathering but value

addition, branding and marketing.

**EN - How do you propose to compensate and rehabilitate tribals who have lost livelihood during Covid pandemic?**

**PK -** This program Van Dhan is entirely to get tribals into the enterprise mode. We are looking at tribals to reside in forest areas. They used the produce to sell as raw materials. We are trying to create these Van Dhan Vikas Kendras, where they will process, value add and package these products and then it will sell for 5 times the price of raw material. This is an employment generation as well as enterprise development program which looks at employment and income generation of tribals. We are now getting into TRIFOOD factory, which is a large scale production hub. Van Dhan Kendras have 800 people whereas TRIFOOD will have 10,000 people. TRIFOOD is a tribal food park in association with Ministry of Food Processing coming up at Bastar, M.P. and Raigad, Maharashtra.

**EN - Are you focussing on a couple of forest produce?**

**PK -** We are taking up Mahua,

**MoU signed for creating self-employment opportunities for Tribal Communities**

**R**ecently, the Khadi and Village Industries Commission (KVIC) and the Ministry of Tribal Affairs signed two MoUs for purchase of Khadi fabric for tribal students, and on partnering of Tribal Affairs Ministry with KVIC as an implementing agency for Prime Minister Employment Generation Programme (PMEGP). Speaking on the occasion, Minister of MSME Shri Gadkari said, the Ministry of Tribal Affairs will procure over 6 lakh meters of Khadi fabric worth Rs 14.77 crore in 2020-21, for the students in Eklavya Residential Schools being run by the Ministry. He said, the quantum of purchase of Khadi fabric shall also increase proportionally with the increase in the number of Eklavya Schools every year.

Minister of Tribal Affairs Shri Arjun Munda said that National Scheduled Tribe Finance Development Corporation (NSTFDC), an agency of the Tribal Affairs Ministry responsible for economic development of tribals in India, will be roped in as a partner to implement PMEGP Scheme. NSTFDC provides concessional loan schemes for funding entrepreneurial ventures of aspiring scheduled tribes in all sectors of economy. The MoU will thus benefit the tribals by engaging them in various production activities and creating self-employment opportunities. The alliance of NSTFDC and KVIC will increase the coverage of PMEGP Scheme among the Scheduled Tribes.

symbolic relationship with the forests. Tribals have survived only where forests are there and forests have existed where tribals live. The inherent strength of a tribal is to live in forests and use the resources. They have lot of skills which you and I don't have. This skill need to be monetised, so that the income goes up and quality of life improves.

dance, what is that. If a tribal wants to dance to his own music why do you want him to change. We are a welfare society. The Constitution gives us the mandate to improve the livelihood of tribals. The tribal lives in a system which has been there for thousands of years. There is no question of good or bad, he is thriving there.

**ABOUT TRIFED ...**

**M**inistry of Tribal Affairs (MoTA) is the nodal Ministry for the overall policy, planning and coordination of programmes for the development of Scheduled Tribes (STs). Through the primary responsibility for promotion of economic, educational and social development of Scheduled Tribes rests with all Central Ministries, the Ministry of Tribal Affairs complements their efforts by way of various developmental interventions in critical sectors through specially tailored schemes. These schemes are implemented through State Governments, Union Territory Administrations and voluntary organisations.

As an apex organisation under the Ministry of Tribal Affairs, TRIFED interacts and collaborates closely with MoTA. TRIFED was established in August 1987 under the Multi-State Cooperative Societies Act, 1964 by the Government of India as a National level Cooperative body. TRIFED is mandated to ring-fence about socio-economic development of tribals of the country by institutionalising the trade of Minor Forest Produce (MFP) & Surplus Agricultural Produce (SAP) collected/cultivated by them.

TRIFED plays the dual role of both a market developer and a service provider, empowering them with knowledge and tools to better their operations in a systematic, scientific manner and also assist them in developing their marketing approach.

TRIFED is involved actively in capacity building of the tribal people through sensitisation and the formation of Self Help Groups (SHGs). TRIFED is engaged in training the tribals in several activities, so that they can effectively carry them out.

which is used by every tribal household. In association with IIT Delhi the formula has been developed for Mahua Breezer and market it throughout the country.

**EN - Traditionally, tribal people are seen as very primitive and far from modern education and living. How true is this perception. Is it changing now.**

**PK -** I don't agree with your view. Its not primitive. The tribal ecosystem is unique which has a

**EN - As a society, we always exhort tribals to preserve the culture. Is it fair on our part to put the entire burden of preservation of tradition on tribal people, whereas the mainstream society is embracing modern gadgets, garments and education.**

**PK -** This is very superficial and artificial way of describing the tribal way of life. If somebody like wearing a dhoti why do you want him to wear a shirt and pant. People go to Discos and

Prime Minister Narendra Modi has asked people not to lower guard against Corona. Sharing his thoughts with the people of the country and world, in his Mann Ki Baat programme on All India Radio, the Prime Minister said, there should not be any laxity in the rules regarding Corona.

Mr Modi emphasized that Aatma Nirbhar Bharat is a national spirit that makes every citizen of the country take pride and not just an economic campaign. He expressed happiness that the mantra of self-reliant India is reaching the remote villages of the country.

Answering a question raised by Ranjan from Kolkata on what it means to be self-reliant, the Prime Minister said, the first condition for self-reliance is to have pride in the things of one's own country.

The Prime Minister said, it is not just bigger things that will make India self-reliant, but also other fields like textiles, handicraft goods, electronic appliances

and mobiles. He said, many experiments of creating wealth from agricultural waste too are being run successfully in the entire country.

The Prime Minister stressed on the need of water conservation. He urged

people to start a 100 day campaign for cleaning up water sources and harvesting rainwater.

The World Water Day is being celebrated on the 22nd of March. On National Science Day, the Prime Minister

### SAVING LIVES THROUGH LARGE SCALE IMMUNIZATION CAMPAIGNS

freezers, deep freezers and ice-lined refrigerators, across the country. The cold chain infrastructure can be further boosted as the vaccination campaign expands. The Government has also provided capacity building support through master trainers to the 1.54 lakh ANIs who will be involved with COVID vaccination across India in order to minimise disruptions to the Universal Immunisation Programme, additional vaccinators are also being arranged in collaboration with States/UTs.

Further, the Government is working on a communication strategy for making people aware about the benefits of vaccination and its critical role in bringing an end to the pandemic. Efforts are also being made to make people aware of the potential side effects of vaccination as well as quell disinformation campaigns and rumours so that hesitancy can be addressed.

Thus far, India has granted emergency use authorisation to two vaccines - Covishield manufactured by the Serum

Institute of India (SII) and Covaxin manufactured by Bharat Biotech. Other vaccine candidates such as ZyCoV-D manufactured by Zydus Cadila and Sputnik V being manufactured by Dr. Reddy's Laboratories are in various stages of clinical trials. Bharat Biotech's intra-nasal vaccine candidate, in particular is of interest as it could be a game changer for accelerating the vaccination process given the ease of administration and potential ability to reduce the spread of the virus.

India commenced its COVID vaccination drive on 16 January, 2021. In the first phase over 14 million vaccinations have been carried out for healthcare and frontline workers. In order to further increase the pace of vaccination, private sector participation is being scaled up. Around 10,000 hospitals under Ayushman Bharat-Pradhan Mantri Jan Arogya Yojana and 687 hospitals under the Central Government Health Scheme can be used by States as COVID Vaccination Centres (CVCs). States can also utilise all private hospitals empanelled under the State Government Health Insurance Schemes as CVCs along with the health facilities of Public Sector Undertakings and all Government health facilities. Geo reference maps with the GPS coordinates of all health facilities which will serve as CVCs have been prepared and are being shared with States.

All private health facilities which will serve as Government CVCs are required to follow the due process, quality and safety norms, including integration with the National CoWIN technology

platform. Private health facilities are required to have sufficient space, the necessary cold chain infrastructure, an adequate number of vaccinators and support staff as well as arrangements for addressing any adverse events that happen following immunization. Private hospitals functioning as CVCs can recover a charge subject to a ceiling of INR 250 per person per dose.

India is a key manufacturer and supplier of vaccines for the world. In fact, estimates suggested that India meets 62% of the global demand for vaccines. Based on an appreciation of the fact that the pandemic will not end in any part of the world till it ends everywhere, India launched its unique Vaccine Maitri initiative. This initiative is also aligned with one of India's key foreign policy tenets - 'Vasudhaiva Kutumbakam' i.e. 'The World is One Family'. The pandemic has underscored the importance of a shared response to global health emergencies.

Thus far, at least 92 countries have approached India for the COVID vaccine. Till 26 February

2021, India had provided around 36 Million doses of the vaccine to various countries including Bangladesh, Myanmar, Nepal, Bhutan, the Maldives, Mauritius, Seychelles, Sri Lanka, Bahrain, Oman, Afghanistan, Barbados, Dominica, Brazil, Morocco, Bangladesh, Myanmar, Egypt, Algeria, South Africa, Kuwait and the UAE. While 6.8 million doses of COVID vaccines have been supplied as grant assistance, 29 Million doses have been supplied on a commercial basis.

Implementing the largest adult immunisation programme in the world in the midst of a pandemic is undoubtedly challenging. However, this mammoth task can be achieved by leveraging the lessons learnt from India's previous large-scale vaccination efforts including meticulous microplanning, capacity development at every level, systematic multi-sectoral engagement, extensive use of technology and social mobilization.
